GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 15,000 coins with an estimated value of $100 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

METALS TUMBLE POST ANA
WHITMAN FILLS LATE SUMMER GAP

The Market in Depth

Such an amazingly successful ANA is certainly a tough act to follow. Now that the afterglow of the Baltimore bonanza, with all its mind-blowing auctions and eye-popping displays, is beginning to fade, dealers and collectors are wondering if recent unprecedented strength and demand will indeed continue into the fall. This summer's juggernaut convention and auctions, powered by impatient demand for an acute shortage of choice material, propelled prices into the stratosphere. As usual, the next opportunity for the rare coin market to demonstrate its staying power, or lack thereof, isn't too far off. Whitman Coin and Collectibles Atlanta Expo is coming right up, August 21-23, in Georgia. In an ongoing attempt to make coin shows more educational, Whitman offers a free club table or meeting room in exchange for giving a lecture sharing one's numismatic expertise. Also, non-competitive exhibitions are encouraged in addition to the already scheduled displays.

The challenge to meet unwavering collector demand has a new wrinkle that could shake the confidence of some participants in the rare coin market: precipitous declines in precious metals. Since our last report, Gold has slipped over $57 per ounce, now at a Spot of 821.50, and Silver tumbled $1.94 per ounce, resting at $14.60. Platinum saw a major reduction as well, settling at $1,535.50, quite a drop from its mid-July level of over $2,000. This downturn in metals across-the-board does affect the generic and bullion sensitive areas of the rare coin market, in both positive and negative ways. As mentioned, the confidence level could decline, possibly slowing sales, but so far, we've seen concrete positive results involving Gold. There has been a run on coin shops for bullion as collectors/investors are seeing a huge buying opportunity, resulting in significantly increased premiums. For example, dealers are now paying $10 over Spot for Krugerrands just so they have product to re-sell. In any case, expectations for Atlanta are high. Rarities show no signs of losing favor with buyers, and are considered very likely to bring strong money in Georgia. Stack's will host the Decatur Sale, August 21-22 in Atlanta, as part of the Whitman Expo. We have listed some of its many highlights. Things will ramp up quickly in September, when a basketful of auctions and the highly anticipated Long Beach show will kick off what could be quite an uplifting fall.

The loans were sold for approximately $3.1 million.

This Week's Market

CENTS THRU HALVES: Due to Silver Spot's reversal of fortune, the bullion sensitive denominations are all sliding back. Lincoln Cents attempt to add some spark as the better 1939D roll tops $300. State Quarters also show some flash as 10 entries to the series are brandishing advances.

MERCURY DIMES: Although several of the better date Mercs in Very Choice and better are experiencing at bit of the summer doldrums, we note that diligent buyers are still raising the ante to secure most of the series' stars and semi-keys in multiple Circ grades. Buyers are still omnipresent for blast white commoners with Fully Split Bands.

WALKING LIBERTY HALVES: This ever popular series has more than its fair share of devotees. While early rarities remain in check, a trio of trendy San Francisco issues are jogging to higher ground in Gem led by the anchor to the short-set, 1941, topping $950.

DOLLARS: As the conditional rarity 1884S muscles to $4,850 in MS60, most of the Morgan's conclave are ripe with supporters. Yes, buyers are out in force for mounds of commoners as well as the series' clite in MS65 and better. Just how strong is the demand? A virtually complete set of Morgans grading at least MS65 was sold by Park Avenue Numismatics for $2,035,000. Not surprisingly, just seven of the better dates accounted for over 75% of the sale's proceeds. Peace Dollars are steady at current Bid.

PROOF SETS AND MINT SETS: Fans of this segment are not all that vocal, yet with only a few minus signs noted for later Proof Sets, the melody could be worse. Mint Sets are offering a bit better refrain as a foursome of post 1980 issues inch higher.

COMMEMORATIVES: A trio including the Bridgeport, Cincinnati Type and Roanoke travel the higher road in MS65, but many more are getting sidetracked. The Classic Gold ensemble maintains a solid position as only the 1916 McKinley drifts lower in the face of many supporters for the rest of the series at designated levels.

TYPE: Top tier classic federal Type coins are churning out some sustained heat. A high octane trio of shakers on the move include a pair of one year Type wonders as 1793 Half Cents in XF and 1796 Draped Bust Quarters in MS60 reel in higher Bids. Rounding out the performance, the two year Type Flowing Hair Halves (although everyone's Type coin is the 1795) are taking the spotlight to $39,400 in MS60. Proof Type reveals no plus signs, yet favors us with a solid display of support at or near Bid.

GOLD: As Gold Spot cruises down around $820 per oz, the powerful Midas touch has apparently lost its grip for the moment. A quick glance below will confirm that the precipitous drop since our last report has been cause for considerable fallout for bullion related Circs on up. Buyers are certainly fewer, yet are still visible for MS65 Type II Dollars, $5 Indians as well as the popular $10 Lib and Indian duo at current Bid.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

"I would like to commend him for his professionalism, courtesy, and honesty."

Subject: Don Severance

Gentlemen:

This is an unsolicited testimonial on behalf of Don Severance. I would like to commend him for his professionalism, courtesy, and honesty.

I had bought a large lot of U.S. currency notes from Don a few years ago on eBay. After that transaction, which was very satisfactory, I asked him for help in putting together a small collection of high-quality large and small US notes. Don was very helpful, and supplied me with several very fairly graded notes at very fair prices.

Unfortunately, due to a change in financial circumstances, I needed to dispose of the collection. When I contacted Don, he responded promptly and asked me to simply send him all the notes I wanted to sell. Within a few days, he came up with a very satisfactory offer that I had no hesitation in accepting. Throughout, he has been the epitome of professionalism. When I am in the market as a buyer once again some day soon, I will turn to him for my needs.

The world needs more people like Don Severance. Spectrum is very fortunate to have him.

Please do not hesitate to contact me if you have any questions or need any further clarification.

Sincerely,

ARD

SPOT PLAYS DEAD, BUYERS COME ALIVE
AUCTIONS FUEL FALL MARKET

The Market in Depth

It comes as no surprise to seasoned coin dealers, analysts and collectors that the precious metals were due for a correction, yet the *severity* of the drop has shocked many. Of course, the rare coin market is heavily affected during such savage and lightening-fast swings—quite prevalent in our current financial storm—taking its toll on Silver, Gold and Platinum. Just two weeks ago, Gold was sitting at $878.60, with a Silver Spot of $16.54 and Platinum settling at $1,584.50. These levels, even then, represented a significant deeline from late July's Spots, as the metals market was searching for some stability. Obviously, the market is still very much unsettled, and the declines have widened. Gold has been in nearly a free-fall, dipping below the $800 per ounce mark, and resting now at $799.70, losing 9 percent in two weeks. Silver slumped even more in the same period, with a 20 pereent collapse to $13 per ounce, and Platinum sank 12 percent to $1,394. Fortunately for some dealers, this apparent problem is actually a golden opportunity. Those with physical, live bullion are in great shape currently, as strong customer demand for this material is pushing premiums skyward. These dealers are in the driver's seat, as plenty of participants are eagerly gobbling up metals in all flavors. Dealers are paying $30 over Spot for American Eagles, while Krugerrands and Maples have Bids with $13 premiums, and offers of $30 over Spot are on the table for Platinum $100 Eagles. Even Proof Gold Eagles are seeing new players, with purchasing offers carrying $180 per ounce premiums over melt. Demand is so strong that the Mint simply can't keep up. In addition to the ongoing rationing of American Silver Eagles, the US Mint has made an even more radical move with American Gold Eagle bullion pieces by suspending their sale altogether, and bulk sales of Proof Silver Eagles are in the same boat as well. Clearly, the battle is on to secure a strong supply of precious metal product for all those who are confident this dip will result in a significant upswing.

The extent to which metal volatility affects business at the upcoming shows and auctions is an interesting question. If the mad dash for Gold, Silver and Platinum rolls into Georgia and California, results in the numismatic marketplace could be quite dramatic. We are on the brink of a slew of auctions which will certainly provide some answers. Whitman's Expo, in Atlanta, August 21-23, features an auction by Stack's, and will be the first test of this particularly volatile market. Then it's off to Southern California for the mid-September pre-Long Beach auctions. Bowers and Merena will begin by offering the Beverly Hills Rarity Sale, September 13. Two highlights include an NGC MS65 1893-S Morgan Dollar and an NGC MS65★ 1851 $50 Augustus Humbert, Reeded Edge, 880 THOUS. Pioneer Gold piece. Superior will host the pre-Long Beach Elite Coin Auction, September 14-16 in Beverly Hills, which includes an 1895 NGC PR67 Morgan Dollar. Ira and Larry Goldberg will also conduct a pre-Long Beach Sale, September 14-17 in Beverly Hills. The Rouse colleetion of Half Cents and some selections from the Naftzger collection of Large Cents are among its many highlights.

This Week's Market

MERCURY DIMES: Although apparently on the quiet side, Mercs aren't resting on their laurels as buyers remain visible at or near Bid for the majority of the series. Those still on the move include quality Circ examples of just about any key and semi-key, as an all-out attempt is being made to maintain inventory as well as fill aging want lists.

WALKING LIBERTY HALVES: Walking Liberty's suitors are far reaching. Not only are eommoners inching up to $128 in Gem, those in loftier grades are trekking to higher ground as well. Anxious buyers are also on watch, ready to latch onto every early key in problem-free Cire through frosty white Gem at or above designated Bid.

DOLLARS: While several of the scarcer Morgans are eaught easing baeking in MS64, it's generally the generic Circs and MS65 examples feeling the wrath of Sliver Spot's tribulations. Combating this adjustment, the perennial eollector's favorite and hole filler for the elusive 1895, the "affordable" San Franciseo Mint 1895 is racing to $20K in MS65. Keeping things even warmer, a host of slightly better dates are at higher levels in MS66-67. Peace Dollars remain a tough aet to book. Aficionados still haven't gotten their fill as virtually the entire ensemble has waiting homes in Very Choiee and better at advertised levels.

PROOF SETS AND MINT SETS: Early entries within the Proof Set sector are keeping interest alive as the popular 1950-51 Proof Sets top $630 and $535 respectively. Mint Sets are along for the ride as no one is getting off, and the 2000 installment inches up.

COMMEMORATIVES: A few plus signs are attempting to stir some action, yet the vast majority of the Classic Silver Commems contingent is still floundering. A bit of everything, from the ordinary Cleveland and Long Island players to the popular Lafayette Dollar, is drifting baek. The latter finds MS64 speeimens easing to $2,950 Bid. Classic Gold maintains equilibrium and is tight with buyers at prescribed levels with few bargains to be had.

TYPE: To no one's real surprise, early federal Silver denominations in high grade are facing intensified demand. The tough, two year Type Draped Bust Small Eagle Half Dimes get a solid push up the Bidding ladder as MS63 offerings roost on a $3K advance. The elegant and elusive big brother Draped Bust Large Eagle Halves in Gem soar on a 20% advance, nesting at $60K. Proof Type stays steaming hot, as the very popular Charles E. Barber designed Quarter is seen boiling up to $1,900 in PR65.

GOLD: The yellow metal's spiral below $800 has the entire ensemble retreating to lower ground. Bullion sensitive as well as higher grade Type is feeling the pinch. A few bargain hunters are sniffing around for values here as some dealers may be foreed to sell at below eost to move material today and prevent larger losses tomorrow. The lone star is the dazzling High Relief Saints grading MS65 pushing to $45K. No doubt, dealers are still preparing for the obvious pairing themes with the highly antieipated MMIX Ultra High Relief Double Eagle seheduled to make her debut in 2009.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

ATLANTA SHOW EXCEEDS EXPECTATIONS
BULLION PREMIUMS REMAIN HIGH

The Market in Depth

Dealers, fresh from their summer vacations, arrived in Georgia for the Whitman Coin and Collectibles Atlanta show and left for home feeling rather pleased with their results. Several said that this still growing Aug 21-23 show exceeded their expectations. Despite weakness found among the precious metals it didn't change the general overall perception of bullishness that was experienced all over the bourse for premium quality material. This is especially true for fresh, original coins that have eye appeal and some rarity. Stack's realized $1.6 million from their Decatur Sale that was held in conjunction with the show. A few of the many highlights from the Atlanta auction are listed below.

One dealer said that he was able to buy quite a few coins that were on his clients' want lists. Many dealers attend these shows solely to buy material for customers back home and when they are successful the entire trip becomes worth while. A couple examples of these purchases headed for collectors include: a PCGS XF40 1893-S Morgan Dollar and a PCGS VF30 1797 Draped Bust Dollar. These bread-and-butter coins seem to always be in demand although some believe that a few key dates might have leveled off a bit within the Morgan Dollar and Lincoln Cent segments. Type though, has been a staple throughout much of 2008 and that was very noticeable in Atlanta. Bust material was heavily sought-after at the show, with Half Dimes, Dimes and Quarters being the hot denoms. Most believe that this market is very viable and will remain so provided we don't have a total collapse in the precious metal sector. Another dealer said he was able to buy, wholesale, a grouping of 12 Proof Two-Cent pieces. These didn't stay in his possession long as he was able to quickly flip them to another dealer for a nice profit.

With the price of Gold down, as it was in Georgia, bullion related coins become the target of buyers, resulting in higher Asking prices by way of stronger premiums. Dealers are now paying $225 an ounce over melt for all dates and sizes of Proof American Gold Eagles. The US Mint issued a memo to dealers stating that the overwhelming demand for American Gold Eagle one-ounce bullion coins has resulted in rationing by allocating these coins among the authorized purchasers on a weekly basis until they are able to meet demand. This comes on the heels of last week's announcement that orders for this material will no longer be accepted.

This Week's Market

CENTS THRU HALVES: Lincolns remain hot as the tougher 1942S rolls top $510. Select Quarter rolls from the 1950s break away from the hoi polloi. Although the regular circulation strike has yet to be released, State Quarters find that the immensely popular Hawaii issue in Proof (Clad and Silver) has anxious buyers at $120 and $200 per roll respectively.

MERCURY DIMES: Ms. Winged Liberty may not be dazzling us with her footwork, however buyers confirm steady action remains in place for premier examples. Those having waiting homes include numerous early Full Banded keys as well as volumes of superb frosty white commoners.

WALKING LIBERTY HALVES: Demand for Walkers, especially key early fare is on the increase. Whether the call is for problem-free Circs or the higher echelon in Gem, buyers are looking for a prompt answer. Adding to their plight the perhaps still underrated inaugural 1916 is seen trekking to $1,600 for MS65 specimens and the short-set's 1943D tops $280 in the same grade.

DOLLARS: Morgan's mite is maintained as buyers from all corners are vying for top notch scarcities and rarities. Take a look as the popular 1895S mounts another Bidding assault tacking on 10% to our last report as MS65 examples claim $22K. A few issues in MS66 and MS67 also move up the ladder and as always, DMPLs cast their spell as over 40 reflect on further escalation. While one of the keys to the Peace Dollar corps 1934S claims $1,475 in MS60, the rest of the series is running a tight ship. No one is cast a drift and buyers are docked waiting for those in MS64 and better to come ashore at designated levels.

PROOF SETS AND MINT SETS: Perhaps no news is good news. The Proof Set segment is on the quiet side this week with only a few insignificant later issues drifting back a tad. Mint Sets cast a similar line with a bit more buyer visibility at advertised prices.

COMMEMORATIVES: Classic Silver Commems are still attempting to get their act together. Although a few detractors are noted, positive signs that things are on the upswing include the tougher 1922 Grant muscling up in MS65 as well as the flurry surrounding several of the always popular Booker T. Washington Sets in Circ. Classic Gold delivers a moderate vote of support to her followers. The entire ensemble is tight with buyers and the 1903 Jefferson delivers a $2,850 offer in MS66.

TYPE: Once again virtually all the attention in this hotly contested venue tracks early material. This go around, tough to find problem-free and properly graded Draped Bust Small Eagle Dollars are taking flight in a few Circ columns as AU specimens top $14,500. Proof Type maintains solid rapport with her legion of supporters at prescribed levels. While buyers are lined up in queue, the popular Trade Dollars flash up a rung in PR60.

GOLD: As the yellow metal attempts to sort things out and climbs back into the $820 range, buyers are cautiously easing back onboard. While some bogged down with high-end material carefully step to the rear, the propensity of new activity is stepping forward taking in Gold Type in the perhaps perceived safer haven of the MS62-MS64 columns.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

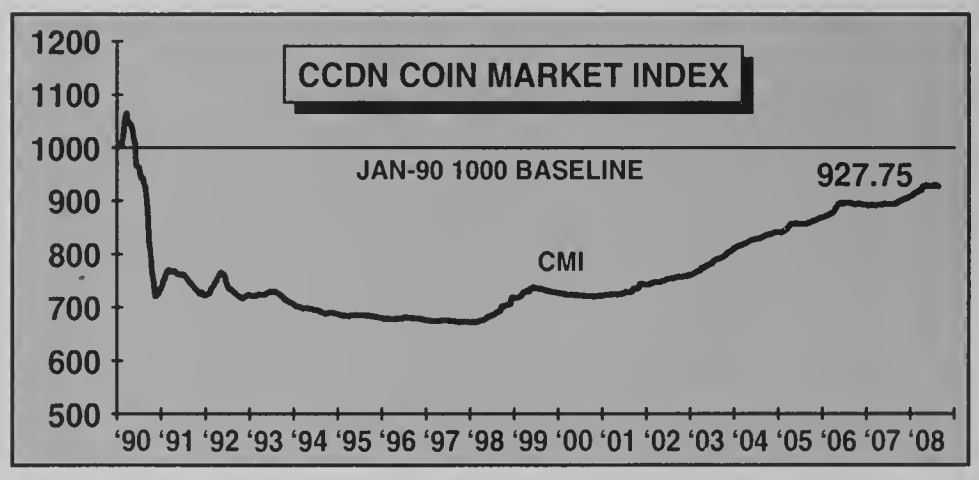
Certification does not guarantee protection against the normal risks associated with potentially volatile markets
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids

The ***Certified Coin Dealer newsletter ("Bluesheet")***, published by the Coin Dealer Newsletter (est. 1963), is the **only** price guide available listing the wholesale Bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, PCI, ICG, SEGS and other independent grading services. Published weekly, the ***"Bluesheet"*** reports the highest known sight-unseen Bids on actively traded certified coins in the standard grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the leading services. Bids for PCGS and NGC are reported every week; Bids for other services are updated monthly. And once each month the **CCDn** also contains Market listings - at no extra charge!

Over the past twenty years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable price movements, attracting a new generation of collectors. As our **CCDn CMI** (a weekly ***Bluesheet*** feature) illustrates, the overall market is **moving higher**. In addition to pricing changes in the market, Bid levels may differ considerably from one service to another.



The ***Bluesheet*** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the ***Bluesheet*** now!

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

PRE-LONG BEACH AUCTIONS AHEAD
BULL MARKET CHARGES WHILE METALS STUMBLE

The Market in Depth

Though many successful auctions are behind us, September begins what looks to be an active fall campaign. This year and indeed the past several years have been quite prosperous for coin dealers and collectors alike. Most have been singing the praises of the bull rare coin market which has been rather easy to do since many areas have hit record levels recently, often amazing onlookers at public auction. Such prices have a way of making headlines and seemingly dominate the talk when the rare coin market is being discussed. Interest in purchasing quality, original material with a degree of rarity is clearly very high.

Metals have been in a remarkable but certainly volatile position lately. Gold has fallen below $800 again before rebounding to its current level of $805 per ounce. Most do believe that the bull market remains in tact, and that should bode well for the balance of 2008. Keep in mind that while Gold is down, it's still very much up. Aside from a few dips below $800, the yellow metal has been at amazingly high levels lately, and the rare coin market has clearly benefited from this. Consider that one year ago, Gold Spot was at $682.50. Demand for physical Gold is, according to the US Mint, unprecedented, with dealers currently paying $255 an ounce over melt for Proof Gold American Eagles with original packaging. Dealers will soon be heading west to California to attend the 3 Pre-Long Beach Beverly Hills auctions that will take place this month. Bowers and Merena Rarities Sale kicks things off September 13; Goldberg's Pre-Long Beach Sale is scheduled for 14-16; and Superior's auction will take place on the 15th. Dealers and collectors will need plenty of liquidity because a number of important rarities are scheduled to hit the auction block while being immediately followed by the Long Beach Expo, beginning September 17. We have listed a preview of the many upcoming auction highlights.

One of the features Long Beach show attendees have to look forward to is the PCGS display of Chinese-made counterfeit dies and coins. The grading company purchased this material (from a vendor based in China via internet sale) as a consumer protection measure. While the coins made from these dies couldn't fool an expert, a tourist could certainly be tricked into thinking they've gotten a deal. NGC is doing its part as well to protect consumers with the release of their new coin holder. On the back of the holder is an anti-counterfeit hologram which NGC says is virtually impossible to reproduce.

This Week's Market

MERCURY DIMES: Although this series lacks the explosive image, there is still underlying visual vitality. As always, volumes of Full Banded commoners, scarcer dates and keys, such as the 1916D and both 1921 entries, have waiting homes. Now with west coast actions coming up fast, buyers are carefully scrutinizing want lists, hoping to pry some additional Mercs out of hiding at or near assigned levels.

WALKING LIBERTY HALVES: Walkers' passionate following is still craving well-struck original material. However, while the immensely popular first stringers get considerable play from buyers, the short-set is a tad soft with a trio of easily replaced MS65 specimens easing back a bit.

DOLLARS: Morgans bolt out of the corral with much enthusiasm as desperate buyers raise the bar on over 2 dozen cartwheels. Included in the roundup are a magnificent seven, each pulling away with 5-figure offers. Several of the conditionally rare New Orleans entries are manning this impressive power play with a $58K Bid, led by the tough 1897O in Gem and then taking a massive bow in glorious MS66, cracking 6 figures. Other keys like the 1884S and 1889CC are making a run for it in MS60. Peace Dollars pack some heat too, maintaining solid footing as buyers tack on advances for the better 1926 PDS trio in MS65.

PROOF SETS AND MINT SETS: Although numerous modern Proof Sets are courting losses, most are inconsequential as sellers look to pick up some cash. Keeping matters on a positive plain, the 2006 and 2007 Silver Proof Sets are actually inching higher. Early Mint Sets maintain their Bidding dignity; however, modest rollbacks are in the majority for most recent issues as well.

COMMEMORATIVES: With a major west coast show and related auctions on the near horizon, many dealers are still anxious to shore up cash reserves. Invariably, the still popular yet expendable classic Silver Commems such as the Cincinnati Type, Maryland and York County Maine are hearing the call. As a handful of the lower mintage Americana drifts back in the Silver corner, the classic golden ensemble of players is decisively stronger with buyers as only the 1922 Grant eases back down the trail in MS64. Proof American Silver Eagles are now Bid at $31.50, possibly in response to the fact that they are no longer available from the US Mint.

TYPE: 19th century Silver Type is the center of the buyers' universe. The short-lived Twenty Cent pieces flex higher in MS64, and Liberty Seated Halves with Motto rise in a couple of Mint State columns. The extremely popular and tough to locate Capped Bust Quarters are making the most ruckus. Buyers have put in their 2 bits as we observe healthy advances tackling both Large and Small versions in MS65 at $28K and $23K respectively. Proof Type delivers a punch for Liberty Seated and Barber Quarters while Morgan Dollars reflect on a solid move driving Gem Proofs to $6,650.

GOLD: As the yellow metal struggles to maintain residence in the $800 neighborhood, clearly this perplexing market is not for the faint of heart. Now as the golden bongos attempt to keep things upbeat, buyers are extremely cautious, not wanting to acquire too much new inventory, yet cognizant that fresh offerings are also mandatory this close to sundry Long Beach activities.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

BEVERLY HILLS BECKONS
DEMAND FOR EARLY TYPE SOARS

The Market in Depth

September is out of the gate fast with the kids back in school, football dominating our weekends and coin dealers making their final preparations for the numismatic fall kick-off that culminates with the Long Beach Expo. Expectations are for a fabulous show and strong prices realized for the surrounding star-studded auctions. Demand for quality rare coins continues to maintain its near peak level. Although the economy is reeling, with unemployment at its highest in 5 years and the need for the government to take over Freddie Mac and Fannie Mae, the coin market is sill flourishing. Meanwhile, Gold has sunk below $800 per ounce, as the other precious metals follow suit, fixated on lower oil prices and a strengthening U.S. Dollar. Silver has failed to hold $12 per ounce, and interestingly, as Spot declines, demand for the physical product rises. With the combination of the ongoing government rationing, and the gobbling up of Silver already available, an acute lack of inventory all the way down to the mom and pop shops across the country has resulted in a premium over melt of 3 times the norm. Many of these metal bugs are simply not considering "Paper Silver." In any case, analysts remain bullish on the metals in 2008, acknowledging strong volatility along the way. Of course, if Gold and Silver keep heading south, and panic selling occurs, the rare coin market will surely be negatively affected. The intimate link between precious metals and the rare coin market cannot be ignored.

A good barometer of things to come for the remainder of the year begins with three Beverly Hills auctions beginning with the Bowers and Merena Rarities Sale on Sept. 13. Ira & Larry Goldberg will offer their Pre-Long Beach Sale from Sept. 14-16, and Superior will be there as well with their Pre-Long Beach auction Sept. 15. Heritage will hold their Long Beach auction Sept. 17-19. Demand for popular and low mintage early coinage continues to impress numismatists, and will no doubt be hunted in Southern California. Collector demand is increasing for these treasures with each passing auction, and competition is extremely keen as seen in recent "to the moon" prices realized, forcing serious collectors to dig deep into their pockets. Type will certainly be among the prime targets in Beverly Hills as dealers have many outstanding orders for this material that have yet to be filled. Specifically, buyers are clamoring for Early Type with Flowing Hair and Bust coinage being contested the most. Liberty Seated and Barber Type are also hot. Astute buyers are on the prowl for well-struck, original coins that are problem-free and possess at least some degree of eye appeal. We have listed a few of the many highlights from the upcoming Long Beach Heritage auction.

This Week's Market

CENTS THRU HALVES: Lincolns maintain their fascination over the Bidding populace as the tougher 1934D rolls top $1,550 and the always in demand 1970S Small Date rolls climb to $2K. From that inaugural year 1999, Uncirculated Georgia Peach rolls are favoring us with a juicy $36 Bid to savor while Connecticut business strikes both feel a bit of the heat, claiming $17 each

MERCURY DIMES: Mercs are doing their part to keep things lively. So whether the coin being sought is a Full Banded 1916D Gem for the ultimate connoisseur's collection, or a solid Circ for the beginner, this 20th century rarity is being courted heavily.

WALKING LIBERTY HALVES: Numerous collectors still have a penchant for prime early Walkers as evidenced by the solid display of Bidding bias. As the slightly better 1944D inches up in Very Choice, it's not surprising that dealers are actively looking to shore up quality short-set runs for existing customers.

DOLLARS: In the face of Silver Spot's precipitous slide, Morgan aficionados and dealers remain virtually oblivious to the exploits of the white metal. In fact, several of the scarcer entries in Gem and better are muscling up. Leading this tactical endeavor is the king of the Carson City combine as the 1889 holds court in Choice and Very Choice with the latter featuring a $2,500 advance. DMPLs boast further demand too, as a sweet sixteen reflect on further Bidding admiration Peace Dollars remain steady as she goes with the scarcer 1927D topping $950 in the MS64 column.

PROOF SETS AND MINT SETS: No real triumphs here, although a half dozen late date Proof Sets, including the 2005 Legacy Set, are receiving a little lift. Mint Sets appear to be shadowing that sentiment as a trio from 2000 on muster a modest rally.

COMMEMORATIVES: Camouflaging the negative and accentuating the positive, several better issues such as the Antietam, Gettysburg and the Lafayette Dollar are each generating heated inspiration from buyers, the latter riding home on a $16K offer for MS66 examples. Classic Gold maintains stability as the Grant with Star recoups last week's losses.

TYPE: Although virtually all Type is still a blazing Bidding inferno, in a bit of a departure, select high-end Copper is wrestling (at least for this report) the spotlight away from Silver contemporaries. Please note that the extremely tough to find MS65 Red Coronet Large Cents are spiking up to $8,800. Even at this price, these Copper beauties are possibly underrated. Only a dozen have been graded as such by PCGS/NGC with only 4 awarded a level higher. Popular Indian Head Cents also get a boost as various members of the tribe are sending up stronger Bid signals for Mint State and Proof members.

GOLD: As world events temper the indecision in financial markets, the yellow metal's journey has gotten bumpier. While the majority of generic Gold Type falters a bit further in this theater, better Gold Type attempts to turn this flop around. As a few patrons carefully step in, the $3 Princesses are seen as the only rising star, taking an advance to $7,200 in MS63.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed price and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem full bands" rolls are worth more than listed prices particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

PRE-EXPO SALES SIDESTEP ECONOMY
PREMIUMS UP IN DOWN METAL MARKET

The Market in Depth

Pre-Long Beach auctions were held in Beverly Hills amidst financial turbulence around the globe. A wounded US economy took another blow as financial giant Lehman Brothers filed for Chapter 11 protection. The Fed met Tuesday to discuss the ensuing financial instability, and has decided to leave the current rates as is for now. The Silver lining in all this turmoil for the rare coin market is the resulting boost, though measured, in precious metals. Gold has rebounded to over $783 per ounce, after dropping to $741 last week. This was an important rise, considering ten straight days going deeper in the hole. And keep in mind that premiums over melt are growing, as the huge demand for physical Gold has left dealers scrambling to find the yellow metal wherever they can. Krugerrands are now receiving $18 over melt, an unusually high premium. Even with these increases, very few members of the general public want to sell. In fact, just the opposite is occurring as they are looking to buy more and more, leaving many shops empty handed. Silver reclaimed $11 per ounce, after dropping below $10.50 last week, but the white metal has quite a long, uphill battle to get back to its recent level of over $19 an ounce just two months ago. Still, the shortage of physical Silver is so acute, dealers have begun posting junk bag buy prices for future delivery. Live Silver bags are receiving huge premiums that haven't been seen since the Y2K scare of 1999. So, as with Gold, the increasing demand for the physical product is quite clearly more than the supply. Platinum is the saddest story of all, having plummeted 52% since late May.

The current economic crisis should do little to shake the confidence of prudent collectors looking to buy quality rarities at the Expo. Demand for today's early coinage, especially those pre-1840 coins, has deep roots, as those holding these beauties refuse to part with them. Early Copper, Silver and Gold has maintained its marvelous appeal, and dealers will look to get their hands on any original examples they can find. Every date within the Flowing Hair and Bust coinage arena is of primary importance and acceptable for immediate acquisition. Additionally, Liberty Seated and Barber Type are being targeted by savvy collectors, and will no doubt be heavily pursued in Long Beach.

Copper rarities ruled from the onset of Goldberg's pre-Long Beach festivities, September 14. Copper mania is still very much in vogue, as a host of 6-figure specimens crossed the auction floor, including the following Large Cents graded by PCGS: A 1793 Wreath, MS64B, which captured $224,250; the superb 1796 Liberty Cap, MS66RB, thundering home an amazing $690K; and a powerful $207K Bid, securing a new cabinet for a 1798 MS65B. An 1803 Stemless PCGS MS66RB also rocked the audience Sunday evening with a $241,500 Bid; and a 1796 Half Cent No Pole, raw F15+, brought in $345K. Superior's sale, which included some neat Gold, both Early and Proof, hammered home over $2.5 million September 16. Also, Bowers & Merena's September 2008 Beverly Hills Rarities Sale claimed $3.3 million over the weekend. We have listed a few of the highlights.

1854	$20 Liberty, Large Date	NGC MS64 $96,600

This Week's Market

MERCURY DIMES: This series has developed a rather faithful and enthusiastic following of newcomers. With enticing Mint State frosty Gem coins dating back to WWII available for around $15, who can blame them? Combine this growing demand with buyers already battling for the pride of the outfit's 1916D key and both 1941 overdates in Full Banded Gem, and this balanced attack keeps the Mercs on the rise.

WALKING LIBERTY HALVES: Early Walkers are more than resilient as anxious buyers are prowling for the popular key material in high grade. Those classic stalwart trios from 1919 and 1921 are still raising havoc too as want lists demand problem-free examples in Circ through Gem. Although we do spot a trio of later issues (including the 1941S) easing back a bit in MS65. Nonetheless, demand for the short-set remains quite strong at present levels with the accent on Choice and better offerings

DOLLARS: With Spot Silver taking a sustained drubbing, Morgan generics have finally capitulated and eased back a trifle with MS65 commoners settling in at $135. With that said, key dates and rarities continue to preserve Bidding sanctity as highly visible buyers are not leaving their present Bids unguarded. Although the hoi polloi Peace Dollars have also eased back a bit, most major players have maintained a solid posturing and abundant visible support at current levels.

PROOF SETS AND MINT SETS: A swarm of modern Proof and Mint Sets are feeling the whammy as sundry sellers look to generate cash for more salient ventures. 2007 sets are moving up as dealers realize they're short and now have to buy in the secondary market as they are no longer available from the US Mint.

COMMEMORATIVES: Classic Silver Commems are relinquishing several more from the fold as dealers look to create quick capital for the Long Beach experience and beyond. Those participating this time include a pair of the more prominent players as the Hawaiian and Hudson both take a hit in MS64. Classic Gold remains strong as nearly all the 11-piece contingent as well as both Pan-Pac slugs are basking in a more uniform Bidding glow. Modern Commems are weighed down with minus signs this week due to precious metal weakness. This is expected since many of these Gold issues sell near melt.

TYPE: Ask any dealer, cash isn't the problem—locating the prime early material on numerous want lists is. Feisty buyers are still scouring the bourse, and in most instances are willing to pay a premium for any denomination exhibiting Flowing Hair, Draped or Capped Bust motifs. Proof Type is powerful too, as the popular Matte Proof Lincolns are moving up a notch, and buyers are also taking a shine to Morgan Dollars as PR60 examples top $1,170.

GOLD: The yellow metal has certainly been on a wild ride of late. The current direction is in doubt due to continued world upheavals, and many buyers are necessarily wary to get back onboard as the entire cast below is easing back. The only players holding firm on this whirlwind are the popular High Reliefs in several Mint State columns and a handful of the tough top-tier examples in MS67.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

The Next Generation
Coin Holder from NGC

NGC is proud to introduce the most rigorously tested coin holder ever developed.

The new NGC EdgeView™ Holder ensures the ultimate in security and protection for your coins. We've incorporated cutting-edge features, including a micro-printed label with a UV watermark, and an **advanced-technology** hologram fused directly onto the back of the holder — that is virtually impossible to reproduce. Directional pressure welding cleanly and completely seals your coin inside the holder.

The unique materials employed are identical to those tested, and now used, by the **Smithsonian** in their NGC-developed museum holder that houses the National Numismatic Collection's most valuable coins. Plus, NGC's lauded **EdgeView** design suspends the coin within four cushioned prongs to showcase its edge and enhance the overall presentation.

Hobby-leading innovation — just another way we demonstrate our rare commitment to numismatics.

GOLD ROCKETS TO RECORD ONE DAY RISE
SO CAL AUCTIONS GAVEL $41 MILLION

The Market in Depth

This year's September Long Beach Expo took place at a time when our financial markets were in crisis, resulting in extreme volatility, particularly in metals. Some participants were a bit nervous at the show with the US Government bailing out AIG and numerous faltering banks, and instituting new rules restricting short selling on 799 stocks. Precious metals bounced around as events unfolded, and Gold set its record one day jump during the convention, skyrocketing over $80. Spot has continued to climb, and is currently at $904, which is especially significant when considering that on 9/11, the fix was just over $740. Silver has mounted a comeback too, settling at $13.40, up from $10.46 last week. Platinum is setting records of its own, with its largest one day jump in eight years this week, now standing at $1,236. Generic Gold did experience a brief rush on news of Spot's rise, but demand went soft quickly as buyers were obviously holding back, most likely skeptical of metal stability. It's hard to blame them, when such rapid, large jumps seem to come out of nowhere. In addition to metals, additional drastic movements have been occurring throughout the world of finances, notably, oil making its largest one-day leap ever this week, causing an unusual trading halt.

Amid all this turmoil, the Southern California show was active as usual, with savvy collectors arriving Thursday and Friday to pick from the best material available, and families visiting Saturday for a pleasant outing and a few purchases. One clear difference this time around was that many dealers were primarily focused on selling rather than buying. Of course, transactions were made on the spot if a coin already had a guaranteed home, or if a fresh specimen was offered at a discount, making it irresistible. What hasn't changed is the tremendous demand for quality early Type coins, in both Proof and Mint State condition. As dealers have been telling us, six-figure coins were selling readily leading up to and during the Long Beach Expo. Buyers at this level haven't shown any signs of slowing in light of the unstable economy, nor have they been involved in any panic selling. Quality, rarity and provenance are of extreme importance in today's numismatic marketplace. Collectors are also hunting non-stop for problem-free coins that boast some degree of eye appeal. Specific areas in serious demand include: Early Copper (as seen at the Goldberg auction), Flowing, Bust, Seated and Barber coinage, key dates, and $20 Saint-Gaudens in high grade.

On Sept. 17-21, the Heritage sale hammered over $16.5 million (highlights herein), bringing the total for the September auction extravaganza to over $41 million.

This Week's Market

CENTS THRU HALVES: Early Lincoln Coppers continue to rumble, and bullion sensitive denominations are getting a boost. Georgia Quarters are on dealers' minds as Unc rolls from the inaugural year are plucking a ripe $39 series leading Bid.

MERCURY DIMES: This series is preloaded with so many desirable keys that, although Ms. Winged Liberty may appear to be at a standstill, multiple devoted supporters remain in force with visible offers throughout the series.

WALKING LIBERTY HALVES: Walkers' legion of faithful followers feature solid rapport with buyers as is evidenced by Bidding continuity displayed for most of the prime time keys through the early 1930's. The short-set is still the scene of several more drifting back a tad in Gem. Nonetheless, buyers are still ravenous for frosty white sets in MS63 and MS64 at designated levels.

DOLLARS: With Silver Spot on the upswing by over 20% since are last report, some necessary increases have taken place amongst many of the more generic Circ cartwheels. The current weather pattern of the metals market also confirms buyers are anxious to clamp down on mounds of Mint State Morgans at or near assigned levels. This goes especially for the condition rarities such as New Orleans entries from 1892-1897 as well as the vaunted keys, 93S and 89CC. Generic Peace Dollars are taking a little ding in MS64.

PROOF SETS AND MINT SETS: A bit more stability is evident within this market as both Proof and Mint Sets might be over their prolonged tailspin. The catalyst may well be the still growing demand for the 2007 Proof and Mint Set product as buyers are still raising the ante.

COMMEMORATIVES: Here is something you don't see every day. Nearly twenty Classic Silver Commems and Sets are rolling in with higher Bids. A good blend of better classic Americana such as the popular Hudson and Spanish Trail are spearheading this welcome surge. Sprinklings of other desirable issues are also feeling pressure as the market looks to wake up this sleeping giant. Please note that several of those on the move, including Cincinnati Type in Gem and both the Elgin and New Rochelle in MS66, are revealing a much tighter spread as one dealer looks to make a market here. Classic Gold is still on her feet with only a couple minor rifts in the ranks as the 1903 McKinley drifts back to $2,450 in MS66, and the popular Sesquicentennial Quarter Eagles flutterer back and roost at $2,600 in Gem.

TYPE: As this is the starting point for many collectors anxious to get their feet wet as well as veterans looking to upgrade, Type is hot as usual. So whether it is a Flying Eagle Cent in Circ or a Draped Bust Small Eagle Half in Unc, dealers are still on their toes looking to reel in problem-free examples everywhere in between. Adding to their plight, Type II SLQs are on the move in MS64, and Twenty Cent Pieces in PR64 top $4,200.

GOLD: Courtesy of global financial chaos, metal mayhem has seen Gold redeem the Midas touch in a historic way. Now with Gold Spot trading over $900, buyers are both excited and necessarily cautious, yet for the moment, all Gold Type is getting a boost from this whirling dervish.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

"BULL"ION MARKET & BAILOUTS BEGIN OCTOBER
COINS THRIVE IN TROUBLED TIMES

The Market in Depth

The rare coin market remains surprisingly healthy despite troubles cascading from Washington D.C. and Wall Street down to Main Street, USA. Naturally, the $700 billion bailout is on the minds of Americans as Congress continues its efforts to work out a solution. Failure to pass the first attempt at rescue legislation resulted in the Dow dropping a record 777.68 points Monday, September 29. Of course, on a percentage basis, at 7% down, this doesn't come close to the more than 20% one-day decline seen in 1987. The next day saw a significant rebound as hopes of a resolution rose, as did the dollar. Banks are very much being viewed as a major contributor to this current chaos, and their credibility has suffered. Many are no longer comfortable keeping funds in banks, and are looking for alternatives, namely, rare coins and bullion. Clearly, a flight of money is occurring, seeking safe haven, and rare coins and precious metals are seen as an attractive hedge against loss through traditional investments.

Physical Gold and Silver remain in huge demand, and premiums above melt continue to rise. Dealers have reported significantly increased foot traffic in their shops from customers looking for Gold, and if it's not available, they are requesting to be contacted as soon as it is. Major bullion dealers have reported an acute shortage, and an inability to satisfy customers' orders immediately. Even the U.S. Mint has been affected by the physical shortage, suspending Buffalo bullion sales, citing that demand has surpassed supply. American Gold Eagles have also been affected, with some reports of a selling freeze. American Silver Eagles have been rationed now for the last several months, and all sales of Proof Silver Eagles have ceased. Spot Gold is at $874.20, and Silver Spot, while down below $13 an ounce at $12.20, maintains its huge demand. Platinum has suffered significantly as a result of plummeting auto sales, approaching a 15-year low in America. Keep in mind, approximately 60% of the world's other white metal is consumed by the auto industry for emissions-control parts, the largest of which is in the United States.

Serious collectors remain undeterred, and are trying to buy exceptional quality coins that are virtually free of problems. They are also looking for original, low pop coins. Type is still very strong, especially for specimens of outstanding quality and a degree of rarity that maintains that "wow" factor. These coins are still very much in demand, but the supply is thin. A good deal of early coinage and quality Type has gone into strong hands, primarily through public auction. Higher Bids may free some examples for release back into the market. Long Beach is now history, and many dealers have to come up with some cash to pay for coins bought at public auctions as well as on the bourse. They hope to complete these transactions before the start of the Silver Dollar Expo in Saint Charles, MO, Oct 15-18, which includes The Collectors' Auction by Scotsman, Oct. 17th.

This Week's Market

MERCURY DIMES: Although we are not observing any physical advances, quiet stability still speaks volumes. Week in and week out, this is one series that seems to maintain unwavering respect from multiple buyers at current Bid in most Mint State columns. Demand for keys in original, problem-free Circ remains high, as does the demand for mounds of fully rounded split band Gems.

WALKING LIBERTY HALVES: Walkers, especially the key entourage, feature an ardent, devoted following as strong prices continue to be the norm on the bourse and at public sales. The only dissenter this time is from the short-set as the 1943D rolls back in MS65.

DOLLARS: Morgans appear to be a bit restrained on the top end as generic Gems ease to $130, yet common Circ examples move higher. Buyers feel these coins are solid values even though Spot Silver is down from our last report. That tremendous pocket of better dates in higher grade is still tight with buyers at designated levels, although our observant readers may note that in several instances, the spreads between Bid and Ask have tightened as recent offerings have left little room on the table. DMPLs maintain an ever-growing audience of aggressive patrons as a swarm of those low population dazzlers race higher. Peace Dollars are relatively stable, although MS66 caliber Type coins have slipped back to $550.

PROOF SETS AND MINT SETS: As sellers look for quick cash, volumes of low to moderately priced Proof and Mint Sets are being sacrificed a bit, some even in back of Bid. Although it appears early autumn has ushered in the continued fall for most of this lackluster market, the still popular 2007 issues are solid with the 14-piece Proof Set topping $28.

COMMEMORATIVES: Although corresponding Bids are still in check for last report's winners, several more are ignoring the temporary euphoria. Caught in the backlash are the Grant, Isabella, and York County to name a few, as sellers look to make some speedy sales and generate capital for more salient enterprises. Classic Gold is a bit more stable, yet even here a pair of Pan-Pacs (no, not the slugs) are sharply lower in MS66.

TYPE: The new season can't cool down this market segment. Early Type remains searing hot as the extremely tough to find Liberty Seated Quarters sans Drapery grading MS65 are topping $28K. With a scant PCGS/NGC community of 8, these rare three year Type coins will still be hard to reel in. Liberty Seated and Trade Dollars are also under pressure as each reflects higher Bids. Proof Type mirrors ongoing demand as no bargains have been observed going out the door at assigned levels.

GOLD: As everything Gold continues to glitter, premiums have also continued to escalate as buyers can't get enough of the yellow metal and sellers are reluctant to part with any. Why, even K'rands are receiving Bids as much as $22 over melt. Most US Gold Type is also getting a boost as the popular $10 Libs and Indians claim $5,150 in MS65, and Type II $20 Libs power to $3,650 in like grade.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

OLD GOLD OR NO GOLD
BULLION SHORTAGE CONTINUES

The Market in Depth

The rare coin market is known for its ability to skirt problems in the overall economy. This has been proven again as the market for numismatic rarities has remained strong and steady in the midst of a recession, a $700 billion government bailout, and the resulting volatility in precious metals and the stock market. Monday, the Dow fell more than 800 points, breaking yet another one-day point drop record, set just last week. For the first time in four years, the Dow closed below 10,000, coming in at 9,955.50, down 369.88. Fears worsened Oct. 7, when the market lost an additional 500 points. Even with the history of coins bucking dismal economic trends, some collectors are having a hard time ignoring the crisis, and are understandably concerned about their finances, as well as worried that things will get worse before they get better. As a result, these participants may be less likely in the near future to buy as much material as they did earlier in the year. Obviously, coin dealers are very concerned about business slowing down, but this simply has not happened. On the contrary, business is thriving as safety seekers are showing up in droves looking to buy physical Gold and Silver. Premiums for precious metal bullion and numismatic gems have never been higher, as nervous investors continue to seek protection for their money through a medium they consider safer than stocks or bank accounts. Even experienced bullion dealers are stymied as to how Spot could be dropping while demand is rising. But this is exactly what is happening. Some dealers are now paying up to $55 over melt for common bullion material, while numismatic Gold is now Bid $220 over. Even Mom and Pop dealers have reported receiving orders of $50K to $250K for Gold from individuals who are not blinking at these purchases even with their huge premiums. Supply simply can't keep up with this unprecedented demand, and even the world's largest coin dealer, the US Mint, has reported that inventories for many of their products are depleted or close to it. In many cases, it's either old Gold or no Gold for those who can't wait. This, of course, could lead to a growth spurt in the collector base. Once a bullion customer takes home some century old $20 Saints or Libs, and curiosity kicks in, a new hobbyist could be born.

Of course, market strength remains solid for rare coins that are truly scarce, and demand for early coinage of all denominations is very robust as well. Specimens of incredible rarity and beauty will no doubt continue to shine brightly through today's dark economic clouds. Type coins are a mainstay as always, and the demand for this material has been incredible throughout 2008. Liberty Seated and Barber coins, both Proof and exciting business strikes, are being pursued on the bourse at coin shows around the country and of course at public auctions. Buyers are looking for well-struck, original examples that are also among the condition census. With this stunning backdrop, the coin market's next huge test will come in St. Louis, MO during the Silver Dollar Expo, Oct. 15-18. This is usually a good show as it is held in a collector rich part of the country. Scotsman's Collectors' Auction should provide additional interest Oct. 17 as this sale features 81 Gold coins from the Eliasberg collection.

This Week's Market

CENTS THRU HALVES: Advances are tackling Unc Georgia "Peach" rolls as anxious market makers are offering a sweet $47 for both Mints. The popular Tennessee is strumming a lively tune too, hoping $32 will reel some in. The Connecticut "Charter Oak" finds buyers out on a limb, extending a $21 offer.

MERCURY DIMES: These popular issues circulating through both world wars are a great starting point for collectors. It sure doesn't hurt to still be able to acquire frosty Gem Silver coins over 70 years old for around $20. For the more affluent alliance, buyers remain on watch for Mintmarked, fully rounded, split band specimens from the first decade of the series.

WALKING LIBERTY HALVES: Not only are the key entries being hunted across the grading spectrum, buyers are also paying a premium for common AU representatives. The only minor casualty is the star of the short-set, 1941S, which is tripped up a bit in Gem, now at $885.

DOLLARS: Morgans maintain a vigorous and still thriving following as Circs through MS65 commoners accelerate, the latter reporting in at $132. The series showcases vibrant supporting efforts for most of the elite offerings in high grade too. Several from the proud and historic Carson City connection are moving to higher ground in Very Choice and better. DMPLs are active as always with a handful reflecting higher demand. Peace Dollars are keeping a trim line with generic Gems making a move and only the 1927S rolling back a trifle in MS64.

PROOF SETS AND MINT SETS: While multiple players appear for the key early Proof Sets from 1936-1952, the later entries are considered expendable surplus occupying many dealers' inventories. For now, both modern Proof and Mint Set factions wait patiently for someone to throw out the anchor to keep this ship from drifting further.

COMMEMORATIVES: Another shot of enthusiastic buyer's adrenaline is pushing over twenty from the Classic Silver Commem ranks higher. Those on the move include a great mix of popular entries, primarily in the still collector friendly $500-$750 range. Leading the muster are the pair of Civil War themed participants, the Antietam and Gettysburg in Gem and better. Classic Gold reveals a little dissention in the community as both Grant issues are sliding back in Very Choice, and the Sesquicentennial $2½ takes a more substantial drubbing in MS66.

TYPE: This corner features a multifaceted beast that even seasoned buyers can't seem to conquer. Once again, solid advances have landed on much early federal Copper and Silver. The stately and elegant one-year Type Draped Bust Small Eagle Quarter of 1796 leads the scouting party flying higher in Choice through Gem, the latter roosting at $190K. Proof Type is as resilient as ever with firm support and nary a bargain of quality offerings in sight.

GOLD: Although premiums have skyrocketed, established collectors and a nervous populace are still clamoring for all the Gold coins they can get, both bullion and numismatic. Dealers certainly hear the call as better Type in Choice through Gem is getting a sound boost while $20 Saints are the coin of choice, marching convincingly higher as MS65 specimens command $1,710.

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green or gold label PCI Bids are for slabbed coins only. INS bids are for blue certs. SEGS Bids are for labels without negative comments. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement.

Coins certified by other services *may* trade at a discount; understand each services standards before using the Greysheet grades as a pricing guide.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

MARKET MAYHEM CONTINUES
NUMISMATIC UMBRELLA PROVIDES PROTECTION

The Market in Depth

This year's Silver Dollar Expo, now underway in the Show-Me State, is being eyed especially closely on the numismatic front, as it is the first sizable show since the highly successful Long Beach gala last month. (Of course, quite a bit has happened since then.) In addition to the lull between big events making the mid-west convention noteworthy, many pundits view the St. Louis gathering as a rather important indicator of the rare coin market's strength against the backdrop of our floundering economy. Fears regarding economic health as it applies to coin sales are very real, though not necessarily widespread. In any case, questions will be answered in the next few days upon conclusion of the show and its auction by Scotsman. We've heard from plenty of players that big-ticket items are indeed still moving. Six- and seven-figure coins are being placed, and fresh participants are arriving en masse to purchase precious metals. This flux of new blood should not be ignored, as seeds are being planted for a potential cash crop harvest in the future.

While optimism is clearly warranted, recent, unprecedented volatility in both the stock market and precious metals has understandably resulted in strong opinions on both ends of the spectrum. We've seen prices for the yellow metal plummet, surge, and plummet again. In just three trading days, Spot has lost 7%, as some investors have pulled the rip cord on their golden parachute. In addition, safe haven buying may have been quelled somewhat amid recent global actions taken to shore up the world economy. Conversely, stocks have rebounded dramatically from this news, closing up 936.42 on Monday, October 13, smashing the previous one-day point jump record of 499, set back in 2000. Monday also marked the largest one-day percentage gain since 1933.

Regardless of the recent, non-stop financial fluctuations, week after week, premiums continue to rise for physical Gold and Silver, and supplies continue to dry up. Bullion dealers and even the US Mint are running on very short supplies, and multiple products are simply unavailable, while others are being strictly rationed until what's left is depleted. This run on Gold isn't limited to America, as China, New Zealand and Canada have also reported unheard of demand for precious metals. As a result, in addition to raising premiums to bring some desperately needed product to market, dealers continue to push numismatic Gold, especially on their walk-in customers. For one, it's available, and to sweeten the deal, non-collectors making such purchases could develop an interest in rare coins. Better dates, then, may very well look like a bargain after generics rise up, giving further inspiration to new collectors and veteran enthusiasts as well. It seems the coin market has a good chance to benefit no matter which way the wind blows. The world economy may quite possibly be on the mend from governments flooding banks with cash—in the case of the US, $250 billion to the nation's largest banks. If weakness does continue in the economy, Gold remains attractive as a hedge. Scenario after scenario could bode well for coins. Speculation will yield to facts, for better or worse, by month's end, as the Scotsman auction will pass the torch to New York for Stack's 73rd anniversary sale, October 22. Heritage will host their sale at home in Dallas, Texas, as Jack Lee estate offerings will hit the auction block October 23-25.

This Week's Market

MERCURY DIMES: Devotees may not be as vociferous as other series' buyers, yet their tenacity remains highly evident by the propensity and depth of Bids with each passing issue. This report confirms no new assertive effort, yet volumes of Full Banded commoners are still desired at advertised levels.

WALKING LIBERTY HALVES: Demand for the key kingpins from the early years is still solid, and Walking Liberty's buyers are also preoccupied in assembling high-grade short-sets. Those feeling a little extra push include a trio of tougher San Francisco issues in Gem: the key 1941S rebounds with a $950 offer, followed by the 1943S and '44S, each flexing their leg muscles as they trek higher.

DOLLARS: Morgans keep on the offensive as multiple buyers continue to show their support not only for generics in MS63 topping $39, but for scarce dates and conditional rarities as well. To illustrate, the second toughest Morgan to locate in Mint State from the popular year of 1893 takes the tough New Orleans issue to a solid $14K Bid in Very Choice. Considering the combined PCGS/NGC population is a mere 13 for those graded higher (within all designations), one of the class of 116 making the MS64 grade will suffice rather nicely for most advanced collectors. A Peace Dollar trio of early mintmarked entries is on the move in Gem, led by the Bid of $2,100 for the 1922S. Commoners are also picking up in Choice, now claiming $30.

PROOF SETS AND MINT SETS: Proof Sets can claim a moral victory as none are dissenting, and the popular 2007 14-piece Set is inching higher, taking in a $30 Bid. Mint Sets second that motion with none cast adrift and a bit more visible integrity for middle dates observed.

COMMEMORATIVES: Firming support and visible demand seems to have eased the freefall within the classic Silver Commem ensemble. Only a quartet including the Alabama 2X2, Delaware, 1933D Oregon Trail, and Stone Mountain are naysayers. Classic Gold attempts to maintain the status quo with only the 1917 McKinley issue electing to pull back from the race in MS64.

TYPE: A bevy of buyers are still keeping up appearances as most Bids for the coveted early Copper and Silver remain rock solid. Although buyers are necessarily cautious before committing to acquire material, if the coin is original, has eye-appeal and is problem-free, enthusiastic buyers are anxious to snare everything from Chain Cents through Draped Bust Halves. Proof Type mirrors significant demand at stated levels with more collectors still scouring the playing field looking to capture sundry Liberty Seated denominations.

GOLD: Having given up nearly $40 since our last report, dealers are not at all hesitant in getting back onboard and paying higher fares for high-end generics and better Gold Type. Just take a look below. Although $20 Saints and Libs have given up some corresponding ground in Circ through MS64, both are feasting on solid gains in Gem reporting in at $1,835 and $3,850 respectively. Even K'rands are sporting a $30 premium over melt. Type I Dollars get a great charge too, as buyers detonate a $350 Bid increase in MS65. The $2½ , $5 and $10 Indian tribunal advances in Choice and better, climbing to higher ground.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted, therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

The Next Generation
Coin Holder from NGC

NGC is proud to introduce the most rigorously tested coin holder ever developed.

The new NGC EdgeView® Holder ensures the ultimate in security and protection for your coins. We've incorporated cutting-edge features, including a micro-printed label with a UV watermark, and an **advanced-technology** hologram fused directly onto the back of the holder — that is virtually impossible to reproduce. Directional pressure welding cleanly and completely seals your coin inside the holder.

The unique materials employed are identical to those tested, and now used, by the Smithsonian in their NGC-developed museum holder that houses the National Numismatic Collection's most valuable coins. Plus, NGC's lauded **EdgeView** design suspends the coin within four cushioned prongs to showcase its edge and enhance the overall presentation.

Hobby-leading innovation — just another way we demonstrate our rare commitment to numismatics.

COINS SOLID IN VOLATILE ECONOMY

SCOTSMAN SCORES $2 MILLION IN ST. CHARLES

The Market in Depth

If the Silver Dollar Expo offered any indication of the health of the rare coin market, as many considered it would, then there is much to celebrate. Wholesale activity was brisk, bullion related sales were phenomenal, and the Scotsman auction was their strongest ever. This trifecta of success certainly allowed for a collective sigh of relief for those who feared the worst, that is, global economic woes spilling into the numismatic world. Stated quite simply, this hasn't happened. Of course, the current crisis has had an effect on rare coins, and for the most part, the results have been positive. Indeed, these volatile times have, in many ways, given a boost to those who own rare coins and bullion. Compared to the giant losses in the stock market, coins have performed admirably. And considering the huge demand for precious metals as protection from failure of interest bearing investments, again, coins and bullion have come out a winner. All of these conditions played out in Missouri to the delight of dealers and collectors alike. Gold and Silver were so hot, that dealers were buying bullion at premiums of Spot plus $75 or more. Silver, which dropped to $9.31 per ounce during the show, still managed to received a huge 50% premium over Spot for one ounce Eagles. This scrambling for purchases and paying unprecedented premiums was necessary for dealers to meet collector demand throughout the show. As we've stated week after week, the desire for physical precious metal ownership has gone through the roof, and is showing no signs of slowing down, regardless of Spot declines.

By all accounts, the Scotsman auction was quite robust and exciting, with aggressive, fearless Bidding characterizing the sale. Some attendees reported that dealers were even less restrained than at Long Beach, giving further credence to the notion that investing in coins is waxing rather than waning. Most we've spoken with believe this strength is not in spite of the problems with the economy, but *because* of them. Increasing evidence is pointing in the direction of growing interest in numismatic investments for safety and stability, as opposed to, or at least in addition to, traditional stock purchases. Of course, the timing of the Eliasberg Gold offerings was perfect, combining the much loved yellow metal with a coveted pedigree. One enthusiastic local collector threw down nearly $200,000 for an NGC MS65 1930S $20 Saint-Gaudens. Overall, the result of the record breaking auction was tremendous prices realized, totaling over $2 million for only 1,272 lots. See highlights herein. With the success of the St. Charles sale and show, feeling bullish is now easier than ever. Optimism should reign supreme as we head into the busy month of November. Coinfest kicks off the festivities November 7-9, in Stamford, CT. The Santa Clara Coin, Stamp and Collectibles Expo begins the week after, November 13-16, and to round out the month, the Whitman Baltimore show runs from the 20th to the 22nd.

This Week's Market

CENTS THRU HALVES: Early Lincoln Coppers are heating up as some healthy advances greet the 1934D and 1935S. Renewed demand for State Quarters delivers higher levels for several Unc rolls.

MERCURY DIMES: Advanced enthusiasts are still clamoring for the keys in Circ through Gem. Newcomers should be delighted with the opportunity to acquire Full Banded commoners for under $20.

WALKING LIBERTY HALVES: Walkers are stomping a bit louder, especially when it comes time for buyers to assemble more of the popular short-sets. Here the king of the short ensemble, the 1941S, is on the move again, topping $1,000 in Gem. The crowned prince, the 1944S, is also making tracks in like grade with a solid advance to $550.

DOLLARS: Althougb Silver is trading at just over a sawbuck, Morgans are picking up steam as those commoners in Circ through Gem are on the move with the latter now at $133. The abundantly available, yet popular Carson City entry from 1881 is inching higher in Gem and better. The hard to find fully struck New Orleans issue of 1892 is up in MS64 and MS65, as the latter muscles to $5,750. The PCGS/NGC pop for this coin is 232 in MS65 with only 9 grading higher. DMPLS continue to shine as a baker's dozen of conditionally rare dazzlers mirror significant advances. Peace Dollars maintain solid vigil with eager buyers in queue as the popular 1928 key offering rings up $16,300 in MS66.

PROOF SETS AND MINT SETS: The positive news is that several popular Silver Proof Sets including the 1999S-2001S and 2005 are climbing higher. The negative is that a host of Proof and Mint Sets from 1970 on are still on the outs and drifting lower as dealers look to generate some cash.

COMMEMORATIVES: Over two dozen meaningful advances within the Classic Silver contingent are attempting to breathe new life into this oft maligned series. At least for the interim, demand is on the upswing for much of this low mintage Americana as calculating buyers attempt to pick up some of the better entries in Gem and better. On the other side of the ledger, in a bit of a reversal, the trend appears to find that several more within the Classic Gold ranks are drifting back as the Grant Memorial pair each eases back to $3,250 in Gem.

TYPE: With an ever-present bounty of Bids, boisterous buyers are attempting to rake in a harvest of better Type material. Seems like everything is still on the menu as the Large Capped Bust Quarters are moving up in sundry Circ grades as are the always desirable problem-free Trade Dollars making a move in multiple Circ columns. Proof Type features Indian Head Cents on the warpath as all color combos are getting more wampum.

GOLD: Gold Spot lost over $72 since our last report, but demand is as strong as ever for just about any Gold coins. Even with Spot down significantly, recently established premiums have not budged. Better Gold Type continues to see demand as $5 Indians get a solid bounce in Choice, and big brother $10 Indians claim higher ground in Choice and Very Choice, the latter Bid at $2,000. Small Gold is bucking the Spot trend too with increases seen in low Circ grades. With only a few months away before the release of the Mint's new Ultra High Relief $20 coin, buyers are anxious for the original as MS64 specimens roll to $26K.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full struck Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

To learn more about the big difference CAC coins can make in your collection visit **CACcoin.com.**

A BUSY, UPLIFTING FALL

HERITAGE BRINGS IN NEARLY $13 MILLION AT HOME

The Market in Depth

While Gold Spot, along with the rest of the precious metal family, has been sliding, premiums for yellow metal bullion and collector coins continue to enjoy never-before-seen heights. It may seem counterintuitive that such incredible prices are being paid as the per ounce values decline. Gold Spot has been on the outs for the last few months, falling rather steadily from the mid-$900s in July to rest in the low $700s in the last two weeks. Silver has taken an even bigger hit in the same time period, losing half its value by falling from over $19 an ounce to $9 currently. Platinum has taken it on the chin, under the weight of weak auto sales, selling for $797 an ounce, a five-year low. Not surprisingly, Palladium has suffered as well, coming in at $175 Spot, amounting to a loss of 63% since July. But the bottom line is that the demand for physical Gold and Silver is so strong, that buyers are actually happy to pay outrageous premiums, and because of the acute shortage, quite possibly wait weeks for delivery. Problem-free, Circulated Gold is at a premium of $200 over Spot. In addition to the increases for Uncirculated American Gold Eagles, those in Proof condition are going for a premium of $285+. Perceived safety offered in owning physical metal is still being fueled by the ongoing volatility in the stock market. Interest rates may go down yet again as the FED is scheduled to meet this week, quite possibly lowering the central bank's key interest rate to 1%.

We all know when metals are strong, the coin market is strong, and the current demand for metal in the form of collectible coins is showing plenty of power. Things could get spooky if Spots continue to drop across-the-board, but so far, those in the coin business should have no problem keeping their jack-o-lanterns lit and their candy cauldrons full this Allhallows' Eve. Recent auctions with healthy prices realized include Scotsman's $2 million take as part of the Silver Dollar Expo, and Stack's just brought in over $5 million for their 73rd anniversary auction. Heritage wrapped up their own very successful sale, totaling nearly $13 million. See the highlights herein. This market, in spite of the widespread economic pessimism outside of the numismatic bubble, is performing quite well indeed. Once the little ghosts and goblins return home, our next adventure comes as a barrage of shows in November. Giving thanks should be in order if metals hold up and the auctions are anything like what we've seen this month. November 7-9 features Coinfest in Stamford, Connecticut. California's Santa Clara Expo runs from November 13-16, and the Whitman Baltimore show is set for November 20-22.

This Week's Market

MERCURY DIMES: While our discerning readership may spot a few players easing back, demand is still omnipresent as multiple buyers are more than keeping up appearances. A recent check in numismatic circles indicates that the pride of the series, 1916D, is being scarfed up at premium levels in Circ and better. The popular 1921 and '21D are also being sequestered away at retail auction for significant levels over wholesale Bid when premium pieces are available.

WALKING LIBERTY HALVES: Once again, the charge of the trumpet was heard loud and clear when nearly $40K was sent chasing after a Very Choice 1919D specimen at a recent public sale. Collectors are also in the hunt for other key entries such as the sometimes forgotten 1920 mintmarked duo as well as flashy, well-struck representatives from the short-set.

DOLLARS: While Circ generics are pulling back, demand for Mint State Morgans is still on the move as behind-the-scenes trading continues to reveal large volume activity. Key dates and big-ticket items haven't seen buyers flinch as they aren't scared in the least to conjure up top echelon material such as the vaunted 1893S, 1889CC and 1895. Peace Dollars maintain the status quo as a solid showing for the short yet popular series has visible buyers lined up for Choice and better material.

PROOF SETS AND MINT SETS: Nothing really scary on a percentage basis, yet in what has become a common reprise, many late-date Proof Sets are caught drifting back. Keeping the faith, the 2007 Presidential and 14-piece Sets are actually seeing an advance, and Mint Sets count their blessings as only the 3-piece Bicentennial issue slides south.

COMMEMORATIVES: While spreads may be a bit tighter on some of the more common entries, collectors are starting to eye top tier MS65 plus offerings as present levels may offer an opportunity. Classic Gold is on the quiet side with only the Sesquicentennial Quarter Eagle spooked, fluttering back in a pair of Mint State columns alongside the Grant W/Star easing back in Gem.

TYPE: A lot of players are still canvassing this popular neighborhood, and while buyers don't have to be tricked into raising the ante, they are hoping that the supporting efforts will spring a few treats from hiding. Small Copper is heating up again as Matte Proof Lincolns and Proof Indian Head Cents are in great demand in all color combos. Circ Bust Half Dimes and Trade Dollars are also feeling additional pressure in several grades.

GOLD: Never in trading history has there been such an unyielding demand for Gold coins. With Gold Spot actually trading down another $25 from last report, this has done little more than drive up demand. Double Eagles have eased back to a corresponding level, yet premiums haven't softened as a $200 "convenience" fee for Circ Saints and Libs remains standard. Amazingly, if we backpedal one year, Gold Spot was actually trading about $15 higher, yet Circ Saints were trading about $20 over melt, and MS62 Saints were Bid at $830 vs. $1,130 now. MS65 specimens could be had at $1,290 vs. $1,650. What a difference a year—mired in economic fallout—makes.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

A LITTLE STICKER MAKES A BIG DIFFERENCE.

Actually, it's smaller than a coffee bean. But the impact it's having on the coin market is significant. Coins bearing the CAC sticker are bringing notable premiums at auction. Not surprising, since CAC coins are considered, at minimum, 'solid' for the grade. In just a few months, CAC has authenticated 50,000 coins with an estimated value of $300 million.

That's what happens when you bring an idea whose time has come to market. Only coins that meet our strict standard earn the CAC sticker. We believe so strongly in the value of CAC quality coins that we have capital commitments upward of $25 million for the sole purpose of making markets in our product.

MILLION DOLLAR MORGAN
IS NEW PRESIDENT COLLECTOR FRIENDLY?

The Market in Depth

Who says we're in a recession? Actually, plenty of experts are saying exactly that, which, by stark contrast, dramatically magnifies the bullish experience of many in the world of numismatics. Not only have mind-boggling premiums for common, Circulated Gold boosted an already robust market, but high-figure rarities are moving as well. To wit, a Morgan Dollar just sold for over $1 million. Believed to be the highest price ever paid for a Morgan, the coin is much more than an ordinary cartwheel. This specimen is the finest known 1893S, graded MS67 by PCGS. Not surprisingly, a noteworthy pedigree accompanies the treasure, including previous homes in the Vermeule Collection as well as the Jack Lee amassment. Such an outstanding sale alone could infuse an entire industry with confidence, even if enthusiasm were lacking. But this transaction serves more as an exclamation point to a resounding proclamation of strength and success by the rare coin market, especially in the midst of worldwide economic instability over the last several months.

As you read this newsletter, our nation now has a new leader, and one can't help but wonder what effect this will have on the economy, and thereby, on rare coins. While no one can predict the future, looking at the past can at least be of some assistance. In the last several years, the numismatic market has been like a freight train, and as such, has been plowing through one of the worst economic climates in American history. Of course some are concerned about the possibility of derailment, especially if precious metals make continuous precipitous falls. Metals have been rather weak of late, though dips have usually been followed by fairly quick recoveries. Uncertainty regarding our new president, regardless of the choice, could very well benefit metals as investors, once again, run to Silver and Gold for safety.

So much to consider, and so many opportunities are coming up for the rare coin business to prove itself yet again. Santa Clara will feature rarities in its auction by Superior, as well as exciting displays, November 13-16. Stack's is holding their Keusch, Snow and Del Zorro Collection auction in Maryland, November 18-19. Some of the highlights include a PCGS MS65RB 1797 Large Cent, Rev. '97, Stems; a 1794 Half Dollar PCGS F15; an 1880 Morgan Dollar graded PR68 Cameo by NGC, CAC; and an NGC PR64 1911 $20 Saint-Gaudens. Following immediately is the big Whitman Baltimore show, November 20-22, which offers some excitement as well. As the final Whitman show of 2008, the convention in Maryland includes a 4,300 lot auction by Bowers & Merena (see preview at left). In addition, Anthony J. Swiatek will discuss collecting and investing in coins and currency in the Professional Numismatists Guild's "Share the Knowledge" educational seminar.

This Week's Market

CENTS THRU HALVES: Once again, Lincolns are elected to receive some serious action from buyers as a host of early Coppers take 10% and better jumps. Leading the flurry are several San Francisco players winning the race. The 1935S Unc rolls top $1,700, and the popular 1936S pulls a solid $750. State Quarters are still courting action as several buyers are raising the Bidding bar.

MERCURY DIMES: As buyers prominently brandish their supporting offers, behind the scenes action confirms that multiple players are chasing pleasing, problem-free keys in all grades. Mounds of the frosty Mint State Full Banded commoners are also wanted.

WALKING LIBERTY HALVES: The short-set remains especially toasty with buyers as the autumn chill sets in. Multiple dealers are vying for most in Choice and better as the scarcer 1942S tops a $480 Bid in MS65.

DOLLARS: While Gem and better generics are easing back a tad, Morgan mania continues to track down the elite members of this crew. The proud and rare 1892S is a prominent target, racing higher in Choice and Very Choice, the latter packing a powerful $10K advance. The equally tough to corral 1895O, which is usually besieged with an abundance of bag marks and saddled with dull luster, has a scant PCGS/NGC community of 33 residing in MS63. Perhaps the tantalizing $45K offer will spring a few from hiding. DMPLs, as always, grace several columns with sold escalation. Peace Dollars are also standing firm as the semi-key 1923S steps up to $6,850 in Gem.

PROOF SETS AND MINT SETS: The good news is that strength and the buyers' bias embrace the coveted 1936-1952 Proof Sets with a little flourish set aside for two of the 2007 installments. The bad news is that the weakest links, primarily those post 1970 entries, are flocking south. Mint Sets deliver a similar but not so bad aftertaste as the 1971 and '72 Sets inch higher.

COMMEMORATIVES: While previous positive action is greeted with supporting Bids, several issues are lower this week by as much as 10%. The 11-piece Classic Gold combine is sputtering as a handful including the 1905 Lewis & Clark and both Grants roll back.

TYPE: While Type features a few easing back this fall, demand still rages for prime early pickings that are becoming quite slim. For sure, any denomination that features a Bust is not going bust. Liberty Seated Quarters sans Drapery are inching up in MS63. Barber Quarters, always a popular choice, move up a rung as Gem Proofs capture $2K.

GOLD: Spot attempts to find a solid trading range, but one thing remains constant: the high premiums being paid for Gold coins hasn't wavered. While it is becoming a greater challenge for dealers to keep a supply of problem-free Circulated Gold coins in inventory, the security and numismatic factor inherent in Gold is further separating itself from what had been considered merely a bullion related commodity. As the yellow metal bounces higher, $20 Libs and Saints are benefactors of an increase across-the-board in VF20-MS64. Action doesn't stop there as several other denominations are also feeling the heat.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and [illegible]. In the Jefferson series, some of the rolls in the late 50's tend to be dark – these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, [illegible] bands" rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls dull or "put together" bring lower prices. [illegible] rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

STAMFORD, CT SHOW AND AUCTION SUCCESSFUL
US MINT SHAKES THINGS UP

The Market in Depth

Coinfest completed a successful three-day show, November 7-9, in Stamford CT, which included an auction by Stack's, and a free evaluation service by CAC. The Harverford Collection sale, held Friday, November 7, realized over $800,000. Some of the many highlights include an 1871 Two Cent Repunched Date, PCGS MS65RB CAC, selling for $2,530; an 1850 Liberty Seated Dollar graded AU55 by PCGS, realizing $5,175; a 1925 Norse American Gold Medal, NGC PR65 Matte, bringing in $28,750; and an 1865 $3 Princess, designated AU58 by NGC, realizing $13,800. CAC's evaluation service was certainly popular as over 1,000 slabs were processed on Saturday at no charge. By numerous accounts, the convention started off a bit slow, but became quite busy. Many were pleased with the show's swanky ambiance, afforded by the hotel ballroom setting, and the abundant security contributed to a feeling of ease. Dealers who had quality material did well in Connecticut, but this show was no place for low-end coins, which simply didn't move. Nice Type coins were a hit, as was dated and Proof Gold. Federal coins were also very much in demand at this collector-centric venue.

Demand for bullion has not abated, but has continued to grow, even though Spot has been somewhat weak. Premiums over melt are now at $320 for modern Proof Gold Eagles. Current softness in metals hasn't negatively affected these premiums, primarily because of the acute bullion shortage which has left virtually no quantities of live one ounce Gold available in North America at wholesale levels. Some who have been involved in numismatics for decades have expressed concern over how the new administration could impact precious metals, particularly Gold. Nonetheless, the current shortage and increasing demand for physical Gold and Silver remains at its highest in recent history.

CCE and the US Mint are shaking up the rare coin market this week. By updating population figures, the Certified Coin Exchange has designated an additional 3090 coins for which they will now accept dealer Bids in higher grades. As a result of buy-backs of problem slabs and label returns, 412 coins will actually end up with a decrease in Biddable grades. Under the revised rules, if a coin has a pop greater than zero in a particular grade, or any grade higher, it qualifies for Bidding, and any hidden quotes will be unmasked in the newly included grades on November 12. These changes will likely catch a few participants off guard. The US Mint is altering the status quo by announcing its removal of over half its current product line. This massive house-cleaning involves plenty of bullion. All the burnished products, except the Gold and Silver one ounce pieces, that began in 2006 will be discontinued, which means Gold Eagle fractionals, and all Platinum and Buffalo sizes. Proof fractional Platinum and Buffalos will also come to an end. What may catch dealers' attention is the fact that several products, including various Bags, Sets and Rolls that have been unavailable from as far back as 2001 will be re-offered in a "Last Chance Sale" November 15 thru December 16. Dealers have been paying large premiums for some of this material as a result of its unavailability. At the conclusion of the Mint's sale, all that is left will be sent to the melting pot.

This Week's Market

MERCURY DIMES: Seemingly without regard to the season, Merc fanciers seem to always have a growing and appreciative paying audience. For veteran collectors, supporting Bids remain in the fold for most of the series' elite, and for the newer enthusiasts, frosty white Full Banded Gems remain in vogue. Dealers fresh from their east coast junket will attempt to fulfill aging want lists for those examples in pleasing Circ to dazzling Gem.

WALKING LIBERTY HALVES: This series continues to beat a rather convincing path for early rarities as well as those tougher to find mintmarked entries from the mid-thirties. Buyers are also lined up for volumes of un-toned Choice and better representatives from the still captivating short-set.

DOLLARS: Morgans feature a ferocious following as some big-ticket elite members flex considerable muscle. Be sure to take a look at the key of the Carson City clan, 1889, seen charging ahead in MS60-MS64. A pair of six-figure rarities is also packing considerable wallop. The always desirable 1892S is making a triumphant triple Bid jump, taking giant leaps in the extremely hard to find MS65-MS67 territory, the latter delivering a solid $300K offer. The turn of the century key Philly installment, 1901, is also scoring big-time as MS65 Gems roll to $290K. This crowned prince of the non-mintmarked brethren has a combined PCGS/NGC following of but 6 in this grade with nary a one graded higher. Peace Dollars though quiet, have a very vocal following at present levels with only the otherwise popular 1921 issue drifting back a bit in Gem.

PROOF SETS AND MINT SETS: If there is a time when Proof Sets begin to shine with buyers, it's the holiday season. After all, where else can collectors get a gleaming set of Proof coins over 30 years old for under $5? Giving the series momentum, the popular 2007 Legacy installment is tacking on a double-digit advance now, claiming $145. Mint Sets are also reporting in with a more rounded base of viable supporters and none dissenting.

COMMEMORATIVES: While action is mixed this report, the trend over the last quarter has been towards a revitalization of the Classic Silver contingent. As supporting Bids are still locked on all with recent advances, MS66 Bridgeport's and the 1936 Elgin grading MS65 are each attracting solid gains. The 11-piece Classic Gold combine is still a bit flat as the 1917 McKinley drifts a tad in Very Choice.

TYPE: Everyone seems to be congregating on this page. Virtually all problem-free original early Type material in all metals and denominations is still fetching premiums when it can be found. Original color, Proof Copper is also very hot as evidenced by the recent push from buyers targeting Indian Head and Lincoln Cents. Popular 3-year Type Flying Eagles are taking flight as PR60 examples are soaring to $4K, and PR63 specimens are perching on a $6,800 Bid.

GOLD: Demand for anything in the yellow metal continues to command hefty premiums on the bourse and electronic trading venues. However, with Gold Spot trading well below our last report, $20 Saints are becoming a bit more available. MS62-MS65 specimens have eased back around 5%. Conversely, other denominations in Choice and better are not giving up much ground, if any, as buyers look to snare problem-free examples at or near assigned levels.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, this year alone, CAC has purchased over $50,000,000 worth of CAC verified coins..

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

PCGS BAGS BODY BAGS
DEALER'S DEAL NEW SHOW IN VEGAS

The Market in Depth

There has been little time to take a breather from the blistering autumn show and auction schedule and digest the Santa Clara convention in California before hitting the road again. In the Golden State, the gathering was praised by many attendees as a successful endeavor with a decent sale by Superior. Their Elite auction brought in $868,868 and featured the highlights herein.

Along with the rapid pace of travel and sales in the current environment, participants are also faced with some new challenges and important policy changes to consider. PCGS is no longer using body bags, at least not for authentic coins. Now, when a specimen is submitted for grading and determined to be real but ungradable, it will be placed in a holder labeled *Genuine*, unless it is holed, plugged or PVC damaged. Last year, problem coins were being displayed in such holders for educational purposes, and then this became a pay service, at $100 a pop. Of course, this tier has been dropped and replaced with the new policy, which goes into effect December 1. As is often the case when a change occurs, it has created a stir with collectors and dealers. Some have expressed great excitement over this new approach, and others are concerned it will result in a watering down of the PCGS product. A benefit for collectors is that coins in Genuine holders qualify for inclusion in the Set Registry. One third party service that isn't free any longer is the NGC online census report. The Numismatic Guaranty Corporation, nearly a third of which is owned by the principles at Heritage, is now charging for this information.

Dealers have arrived in Maryland for the much loved Whitman Baltimore Convention, November 20-22. Bowers and Merena will do the auction honors here. As is often the case, several dealers are holding their own pre-shows in nearby hotels and have been conducting business since mid-week. Next on the agenda is the Money Show of the Southwest in Houston, December 5-7, with an auction by Heritage. Then it's Vegas, baby! The Professional Numismatists Guild will hold their first Dealer's Deal Show at the Wynn Hotel and Casino, December 10-11. NGC will be on-site and open for submissions beginning December 9.

This Week's Market

CENTS THRU HALVES: Once again, various vintage Lincoln Coppers are piping hot. Demand continues to build as buyers look to secure wheaties and early memorials for theme sets to pair up with the new Lincoln Commem Cents earmarked for February 2009.

MERCURY DIMES: As buyers jockey for position to corral the key early mintmarked Mercs, a few well-known players are still rummaging for volumes of common Gem Full Banded examples at designated levels.

WALKING LIBERTY HALVES: Walkers continue to dazzle as a harvest of enthusiasm is growing and attracting more viable offers for keys in Circ through Mint State. Demand for the short-set is still strong, although the 1942D in Gem has stumbled a bit, reporting in at $285.

DOLLARS: Morgan generics may be suffering a bit, yet the market for keys and rarities remains quite robust. The conditional toughie, 1882 O/S in MS65, is driving to $50K as one dealer applies double-digit action. One of a handful of the series' elite in Mint State finds the popular 1892S again on the radar. Over a dozen DMPLs are reflecting deeper respect with accelerated offers. Common Gem Peace Dollars slide to $128. Yet much like their esteemed counterparts, the conditional rarity 1923S tacks on quite a wallop as MS66 examples race to $13,500.

PROOF SETS AND MINT SETS: Proof and Mint Sets are still looking for some much needed footing as a multitude of moderately priced offerings are falling. Bucking the trend, the still popular 2007 American Legacy Set is on fire as Bid climbs to $165 reflecting on nearly a 25% advance in the last two reports.

COMMEMORATIVES: Several keys to the Classic Silver ensemble in Gem and better such as the Hawaiian, Grant With Star, and Sesquicentennial are each drifting back. Some may be wary as several examples with visible support are revealing ever-tightening spreads. This is because many of these coins are available through retail channels at current levels, several of which bear the CAC sticker. Classic Gold finds the diminutive force of buttery golden Americana melting a bit more as well, led by both Lewis & Clark entries taking a side trip down the wrong path in high grade.

TYPE: Type is a welcome guest anytime, yet now, as the end of the year dash is in full swing, dealers are stepping up the invitation process. With want lists in hand, buyers will be on the lookout for the three-year Type Seated Liberty Quarters, No Drapery. Substantial advances are chasing Choice through Gem specimens with the latter commanding a powerful $29,500 Bid. Proof Type is certainly no slouch either as the popular one-year Type Jefferson Silver War Nickel of 1942 is on the move again with PR65 representatives enlisting an elevated offer.

GOLD: Gold Fever may be easing its grip on the current Spot market, yet as far as Gold coins are concerned, premiums are still at record levels for just about anything that glitters. While generic Eagles and Double Eagles have drifted back as supplies become available, the extremely tough $10 Libs sans Motto have soared in MS65. Take a look below as over a 30% advance finds these rare birds perching at $55.5K.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

You probably *haven't* seen our work.

All you'd see is a beautiful coin.

A common first reaction to a professionally conserved coin is wonderment. Conservation reduces the ill effects of improper storage or exposure to environmental contaminants — substantially improving a coin's visual appeal.

Most conservation projects involve only the removal of surface impurities, enhancing the vibrancy of the coin's original patina.

Specific conservation focuses attention on a small area of a coin's surface to remove a spot or debris. This eliminates a visual distraction and removes the impurity that may cause further deterioration.

By returning a coin's surface to its original state, its natural beauty shines through. The professional conservation goes unnoticed, and the result is a beautiful coin.

BALTIMORE AUCTION BOASTS $6 MILLION
DEALERS GIVE THANKS AS GOLD REBOUNDS

The Market in Depth

Reports from Baltimore were fairly consistent, with dealers and collectors very pleased, many saying they had a great show. Some expressed seeing signs of a slight softening of the market, though, and selectivity, as with the recent Coinfest gathering, was clearly focused on high-end material. It seems middle of the road specimens are being rejected more than usual in favor of premium quality specimens. Better date and early Type were a big hit, and several enthusiasts discussed making purchases for registry set bragging rights as well. Some dealers felt pressure to sell their material at a discount, an apparent strategy from astute buyers looking to use the broader weakness in the economy as bargaining leverage in the niche market of numismatics. Some obliged and made deals, while others held firm with mixed results.

There was certainly no shortage of dated Gold selling on the bourse, which makes sense considering the spike in Gold Spot during the course of the show, giving both morale and numismatic yellow metal a boost. In fact, Spot skyrocketed $43 from Thursday to Friday, separating itself from oil at least temporarily. This was certainly a perfect time to approach its current six-week high, at $819. Silver has made a run too, jumping over 10% from last week, and settling in at $10.36. Premiums over melt for both metals remain very strong, even though supplies have begun to show replenishment, at least for those solely dedicated to trading bullion. Incredible volatility in the stock market, resulting from almost daily announcements regarding anything from a possible denial of the auto bailout to the appointment of the next Treasury Secretary, or the Citigroup rescue have resulted in the Dow closing at a six-year low one day, then up 500 points the next. Of course, such radical swings send nervous investors running to precious metals. Platinum hasn't fared nearly as well, as the very same weakness in the auto industry pulling down stocks has continued to slam the other white metal, which has now reached levels more in line with Gold. A mere $7 difference separated the two during intraday trading last week. Considering its Spot of over $2,000 in mid-July, the current drop to $866 per ounce dramatically demonstrates Platinum's intimate connection with success, or lack thereof, in auto sales.

Bowers & Merena's big Baltimore auction realized over $6 million in 5 sessions and over 6,000 lots. See the highlights herein. Many city slickers are looking forward to the Houston, Texas Money Show of the Southwest December 5-7, as well as the PNG Dealer's Deal Show in Vegas, December 10-11, which seems reminiscent of the previously held NGC trade and grade get-togethers.

This Week's Market

MERCURY DIMES: At first glance, Mercs may appear to be on the treadmill to oblivion, yet this series still strikes a positive chord with highly visible buyers. Anxious to secure top notch keys and better dates, dealers also aim to satisfy the hoard of collectors clamoring for Full Banded Gems.

WALKING LIBERTY HALVES: Walkers display good footing as most early entries are still stepping lively with buyers and reeling in phenomenal prices at the recent Baltimore auctions. The short-set also has much to be thankful for this season, although a quartet of better dates, including the 1935D and the key to the abbreviated ensemble, 1941S, are sliding back a bit in Gem.

DOLLARS: Morgan magic is casting its powerful spell in a convincing way as a well-known dealer is hoping to conjure up mounds of Silver-cartwheels. Spearheading the assault with a deluge of higher Bids, this buyer is targeting virtually **every better date** in the entire series. An unprecedented number of members of the Morgan clan in Very Choice and better are feeling the heat as elevated offers hope to pry these keys from hiding. On the other end of the spectrum, generics in MS64 have slipped back to $49 as supplies of this material are plentiful. Peace Dollars are no match for the Morgan muscle, although none are dissenting, and a solid base of supporters at prescribed levels are present.

PROOF SETS AND MINT SETS: Proof Sets may not be turning many heads, yet none are turning away either. This report we are encouraged as the 2000S and 2002S Silver Sets are reporting in with gains, the latter claiming $52. The best news is none are drifting south. Mint Sets maintain stability with several more wearing supporting Bids comfortably covering the status quo.

COMMEMORATIVES: Although overall collector demand for these popular themed Classic Silver Commems is solid, the availability of the majority in Gem and better, and at nearly every venue, leaves some of the urgency of immediate acquisition at the door. As a half dozen of the expendable drift back in Gem and better, some value seekers may be taking a closer look. Classic Gold isn't a paragon of strength either as the Pan-Pac Dollar labors in Very Choice and better while the 1916 McKinley issue falls to $2,100 in MS66.

TYPE: Once again the centerpiece of this courageous market is Type. Those that have a supply are thankful; those that don't are on the lookout for just about any problem-free specimens in Circ through Mint State. Early Copper is especially hot right now. Feeling the pressure, the popular one-year Type 1793 Flowing Hair Half Cents are looking for new homes as Circ examples roll higher. Proof Type is also strong with an upswing of demand still chasing a mix of Liberty Seated denominations.

GOLD: The yellow metal is hitting the afterburners, breaking back, rather convincingly, over the elusive $800 threshold that has eluded her of late. Riding on a six-week high, we note that premiums are still hefty, and the goldbugs are coming back to take a gander as better Type in Choice and better is getting a boost. Generic $20 Saints are also driving up in Mint State led by MS64 examples tacking on $100 since our last report.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, ICG, ANAC5, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose Bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, this year alone, CAC has purchased over $50,000,000 worth of CAC verified coins..

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

GOLD SWINGS, PREMIUMS REMAIN
US MINT BRINGS CHANGE FOR '09

The Market in Depth

With the Baltimore show in the books and an optimistic landscape in view for the remainder of the holiday season, dealers find themselves thawing out in Texas for the December 5-7 Show of the Southwest. Recent success from the $6 million plus Bowers & Merena sale in Maryland as well as strength seen in regional shows since then have made clear that demand remains strong, but selective. Buyers have ramped up an already heightened level of fastidiousness lately, making it clear that in today's economy, value and quality mean more than ever.

Another positive indicator of a strong market is that premiums remain at record levels for Gold, bullion and otherwise. Clearly, the volatility in Gold Spot hasn't destroyed the demand for the physical material, especially considering the yellow metal's jumps up and down lately. Last week, Gold hit a six-week high at $819, and quick as a flash, Spot is now well below $800, settling in at $775 an ounce. This ongoing, seemingly insatiable desire for bullion has left dealers struggling to keep inventory. While some recoveries have been made, a one to two week waiting period is still in place for orders of any sizable quantity. Mom and Pop shops are really feeling the pinch with the depleted supplies of Gold and Silver, and the US Mint hasn't solved its problems with shortages either. In fact, this may threaten production of perhaps the most highly anticipated Mint product ever, the Saint-Gaudens Ultra High Relief. Unfortunately for some, the only bullion scheduled for sale next year will be one ounce American Silver Eagles and one ounce American Gold Eagles. This means no Gold Buffalos or Platinum Eagles of any size, and no fractional Gold Eagles. Plenty of other changes are in store for the US Mint in 2009. In addition to the reduction in products overall, a few new issues will be available besides the much lauded Saint-Gaudens Ultra High Relief. The end of the remarkably successful, 10-year State Quarter program will mark the beginning of the US Territorial Quarters. Guam, the Commonwealth of Puerto Rico, American Samoa, the US Virgin Islands, the Commonwealth of the Northern Mariana Islands, and of course the District of Columbia will make up the six new Commemorative Quarters to be released next year. Several new Lincoln Commemorative Cents are also on the way in '09, as are the Native American Golden Dollars.

Another big change for 2009 involves business in California, one of the 29 states with a tax exemption law on coin sales. Currently, any sale of $1,000 and over is tax free. Beginning January 1, exemption from charging sales tax will be raised to transactions of $1,500 and above. Fortunately, this 50% threshold increase comes at a time when demand is high, especially for precious metals. Once the Houston show is wrapped up, it's off to Las Vegas for the PNG Dealer's Deal show, December 10-11. The bellwether FUN show is coming up fast, too, January 8-11 in Orlando, Florida. Many are looking forward to this show as it sets the pace for the numismatic New Year.

This Week's Market

CENTS THRU HALVES: Early Copper is still on fire. Over 3 dozen Lincoln rolls are feasting on a flurry of action as buyers just can't get enough. We also note a little action following late date Unc Franklin Half rolls as a $125 offer will look to snare a few.

MERCURY DIMES: Regardless of the season, Ms. Winged Liberty's faction of eager buyers remains faithful to this attractive series. With numerous coins available in frosty Mint State for under $10, this is a great starting point for the budget conscious hobbyist. For the sophisticated collectors, Full Banded rarities such as the 1916D, 1919D and 1945 make for quite the challenge.

WALKING LIBERTY HALVES: Early, well-struck Walkers and those frosty white representatives from the short-set remain focal points for dealers looking to fulfill want lists and bolster inventory. However, several from the middle years are still unable to hurdle over some stiffening resistance as the semi-key 1935D has stumbled again in Gem, sliding back to $1,700.

DOLLARS: Just about all better date Morgans are still basking under their blanket of supporting Bids. As more heat is being generated for the upper echelon, several of the group are observed brandishing tightening spreads. Dealer willingness to sell off some expendable specimens at minor discounts is a trade they will gladly take in order to summon up some quick cash for the end of year push. A half dozen DMPLs roll higher, led by the tougher 1900S claiming $5K in Choice. Peace Dollars maintain their positive stance with solid footing following most, although generic MS65 examples have eased back to $126.

PROOF SETS AND MINT SETS: Excluding the popular early installments, most late date Proof Sets seem to have taken an extended holiday. Dealers appear to be well inventoried here, with the exception of the 2007 Legacy Set, now Bid at $170. Mint Sets have supporters for the early years too, and a trio of later entries flashing advances have something to carol about.

COMMEMORATIVES: Classic Silver Commems including the likes of the Isabella Quarter, Hudson, and Spanish Trail are all sliding back in high grade. Spotty support remains in check for some, yet as premium CAC examples make there way to the market at discounted levels, minor adjustments are necessary. Classic Gold fares a little better with only one dissenter found as the Pan-Pac Dollar drifts back in Very Choice.

TYPE: As we approach the winter solstice, scarce and rare early Type continues to sparkle brightly. Dealers looking to capture as many problem-free examples of Flowing, Draped, Capped and Seated denominations that they can will still raise the bar if necessary to complete a deal. Hoping to avoid the holiday rush, Proof Type remains strong too with heightened buyer visibility embracing many.

GOLD: As the Spot price of Gold surrendered $45 since our last report, we observe some rollbacks targeting the majority below. Interestingly, Gold is $27 lower from a year ago, yet MS62 Saints are Bid 15% higher.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** 'raw' coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

TEXAS AUCTION LASSOES $11 MILLION
METAL STRENGTH MAINTAINS COIN MARKET

The Market in Depth

The Show of the Southwest put a nice big bow on the numismatic year, especially for Copper lovers. Heritage's Houston, Texas auction, held Dec. 4-7, provided an early Christmas to those looking for the best examples of Lincoln Cents. Jack Lee's highest ranking PCGS registry set of Lincoln Cents fittingly captured nearly $1.45 million. Of the 278 specimens in the amassment, 38 of which sold for well into five-figure territory, the clear standout was the example that catapulted over the six-figure hurdle—a 1926S graded MS65R, selling for $106,000. A few other notable highlights from this stunning collection include: a 1914S MS66R, which hammered for over $83,000; a 1913S MS66R, taking home over $40,000; and a 1909S MS67R, finding a happy new owner for just over $37,000. The late Jack Lee certainly did his part in bringing the Houston auction total to nearly $11 million (see highlights herein), proving once again that, despite the overall anemic US economy, the world of rare coins remains remarkably hardy.

Gold's function as a safe haven in these troubled economic times has certainly benefited the coin market. Spot hit its all-time high in March, at $1,034. Demand skyrocketed for yellow metal bullion in the second half of the year, resulting in acute shortages and never-before-seen premiums, in some cases now sitting at 10 times what existed just a few months ago. Spreads between Bid and Ask for Gold have also changed in a big way, increasing nearly three-fold as a result of ongoing metal volatility. The story is a similar one for Silver, exemplified by the fact that even junk bags, which have usually sold for below melt, are currently trading for strong premiums. Bullion-based coins selling at or near Spot may very well be a thing of the past.

The ever-growing demand for high-quality specimens being "all there" for the grade, in addition to having eye-appeal and rarity, continues. Such an unrelenting appetite for quality, and dismissal of that which doesn't make the grade is easier than ever with CAC, and not just for newbies. Even seasoned professionals have been able to move outside their specialties, expanding in ways that were nearly impossible before the advent of the little green bean. CAC is well on its way to becoming one of just a few of the giant, game changing entities in numismatics that have come along in the last two decades, including: the grading services, which revolutionized the entire industry; the internet, which allowed access to the market by just about anyone, anywhere; and more recently, the State Quarter program, which brought in untold numbers of new collectors as well as billions of dollars.

This Week's Market

MERCURY DIMES: While most scarce and high-end Mercs are keeping warm under a mantle of supporting offers, not all are impervious to minor discounting. This report, one of the series' keys, the 1921 in MS65FB, has taken an early winter's sabbatical as Bid slides to $3,450.

WALKING LIBERTY HALVES: Walkers are still making their presence felt, as several of the clan dazzle us with a little fancy footwork at public sales in Texas. Well-struck early material, as almost always, remains solid. The scarcer middle years are also holding their own, although a pair spawned from the short-set, including the key 1941S, slides back in Gem.

DOLLARS: Morgan muscle is still flexing as another Bidding assault targets a host of tougher, early branch mint installments. Leading the sortie is the 1880O as this hard to find fully-struck Cajun issue is thriving on a $30K offer in Gem. The sometimes forgotten 1883S is wearing a solid gain too, as a $42K Bid will attempt to bring one home in like grade. On the flipside, MS65 commoners have eased back to $125 as supply wagons fortify inventories. Our readership should note that many other better dates have eased back, and are reflecting tightening spreads. Peace Dollars have a solid ring to them for the majority with only the 1927 drifting in Gem, and MS66 Type settling back to $510.

PROOF SETS AND MINT SETS: Not all Proof and Mint Sets are left out in the cold, yet a flurry of easier to come by offerings are skating on thin ice as sellers look to generate quick cash for more salient end of year enterprises. For new hobbyists, many wearing under a $5 price tag make for an attractive starter option.

COMMEMORATIVES: Over a dozen of the Classic Silver Commems have gotten the cold shoulder as we observe tightening spreads and lower levels. Perhaps some scrutiny and value shopping is in order as the Washington-Carver Type in MS66 has slalomed back over 33%, and the Antietam, Grant and Spanish Trail have all surrendered ground in high grade. The 11-piece Classic Gold ensemble isn't seeing much action, yet none have taken flight south either. The massive and popular Pan-Pac slug duo keeps careful watch under viable Bidders.

TYPE: It could certainly be more festive in this corner, especially if dealers could get their wish lists satisfied at present levels. While just about all early material in Circ through Gem has buyers lined up hoping for a few bargains, they may have to stretch the budgets to reel in these obsolete treasures. Proof Type continues to bolster its case as Gem Liberty Seated specimens of all denominations appear on more want lists.

GOLD: While the yellow metal trades in the same neighborhood since our last report, we do observe a few more gold bugs coming forward, yet with the holiday rush in full swing, premiums haven't eased up one iota. Insatiable demand for just about all Gold Type keeps this sector blistering hot as $20 Saints rise in the ranks across the grading gamut, led by the $60 advance for MS63 specimens.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60-Unc.: May not have full mint lustre, may be dull, toned or show no wear or damage. May be bagmarked and/or weakly struck.

MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.

MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, this year alone, CAC has purchased over $50,000,000 worth of CAC verified coins..

Want confidence in the value of a coin? Look for the CAC sticker.

A STRONG, VOLATILE YEAR CLOSES
HAPPY HOLIDAYS—LAST ISSUE OF 2008

The Market in Depth

As we move closer to the holidays, numismatic players are able to use this time to reflect on a remarkable 2008, digest recent auctions, and prepare for the new year opening extravaganza, known as the FUN Show. Throughout the year, and especially over the last several months, the rare coin market has shown its mettle in the face of one of the worst economic downturns this country has ever seen. As stock values and home prices have fallen drastically, rare coins have not only survived, but have remained quite strong, and in the case of Gold, flourished. Fittingly enough, Gold Spot reached a two-month high this week, settling at $835.40. Week after week, premiums over melt remain at unheard of levels, as many buyers feel more confident with physical precious metals than with paper investments in the current environment. Confidence clearly remains low for such non-physical markets, and efforts continue in the US and around the globe to address the problem, at least in part, by freeing up credit and thereby stimulating the movement of money. To that end, the Fed wrapped up its December two-day meeting, and decided to lower the federal funds rate to an all-time low of 0% to .25%. This is the first time a range, rather than an exact number, has ever been used. Platinum, a very important component of catalytic converters, hasn't fared as well as Gold recently. Big problems with the auto industry (referred to by some as *carmageddon*) resulted in Platinum actually sinking **below** Gold in intraday trading. Softness in this other white metal has been the ongoing story ever since its all-time high of $2,267 in March of this year.

After dealers and collectors have opened all the gifts, cleaned the huge mess, and sent home the in-laws, there will be very little time to rest. January 4 will be especially busy as both Bowers & Merena and Superior will host Pre-FUN auctions, and both will be held in Orlando, Florida. Bowers & Merena's auction will feature over 1,400 rarities, and Superior's will spotlight the "Just Having Fun" Roosevelt Dime collection, which is considered the finest of its kind. The very next day, Stack's will hold their own Pre-FUN sale, also in Orlando. Heritage is the host auction company for the FUN Show itself, and their sale will run January 7-11.

Bowers & Merena has purchased Ponterio & Associates, an auction company specializing in ancients, world coins, and Paper Money. Rick Ponterio and his two sons will join Bowers & Merena's management team as part of the sale of the 26-year-old firm. President and CEO of Bowers & Merena, Greg Roberts, has high hopes for the market expansion potential of the purchase, saying, "With the acquisition of Ponterio, we believe we have positioned Bowers & Merena as the pre-eminent auction house servicing both the US and international coin and currency markets."

This is the final issue of the *Coin Dealer Newsletter* for 2008. We wish you and your family a happy and healthy holiday. The next *CDN* will be published January 2, 2009.

This Week's Market

CENTS THRU HALVES: Several later date Lincoln rolls are piquing buyers' interests. As Spot Silver receives a boost, several of the bullion sensitive are also getting a bit of a rise. State Quarters are feeling some heat as the 2003 Illinois issue rises to $25 for P&D Unc rolls.

MERCURY DIMES: Given the current state of global financial chaos, the series keys such as the irrepressible 1916D have made believers out of many. For the beginner, where else can you pick up a nearly 70-year-old frosty white Mint State Silver coin for around $5?

WALKING LIBERTY HALVES: Scarce and rare early Walkers from the teens and twenties are the prime real estate that adorns many a collector's wish list. The middle of the pack featuring many tougher mintmarked installments from the 1930s are also jockeying for position. Although the short-set reveals a pair easing back a trifle in Gem, the popularity here for well-struck specimens is something to carol about.

DOLLARS: While winter blankets most of country, blazing white Morgans, especially the many keys and conditional rarities, remain on fire. The king of the Carson City clan, the 1889CC, is making noise while the popular 1892O raises the action in Gem. The challenging 1921S is climbing to $9,500 in MS66. Peace Dollars remain a popular option in cartwheel circles as MS65 examples and better are tight with buyers, and only a pair ease back in Very Choice.

PROOF SETS AND MINT SETS: Other than the usual prime-time early Proof Sets from 1936-1952, this component continues to suffer. Mint Sets see a similar setting as numerous modern misfits meander back.

COMMEMORATIVES: While still very popular with collectors, these attractive low mintage Americana are still in search of market parity. As only a handful including the Elgin, Maryland and Roanoke have slid south in high grade, perhaps now would be an opportune time to flush out some "original skinned" coins at or near current Bid. The Classic Gold counterparts are conveying more positive tidings as only one non-believer eases back in high grade.

TYPE: Just about all early Type material is front and center maintaining its presence on wish lists. With only a limited number of problem-free pieces that come onto the market, in most instances dealers will gleefully raise the ante to acquire fresh offerings. Proof Type sustains a strong stand as Liberty Seated examples at current levels receive an open invitation to many homes this holiday season.

GOLD: The yellow metal is certainly anything but silent, heralding in a flourish of activity. A nearly 9% escalation in Spot price since our last installment has buyers scampering. Better Gold Type is on the move with an accent firmly on Double Eagles. Type III $20 Libs in MS63 are riding a $65 advance to $1,550.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions, you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, this year alone, CAC has purchased over $50,000,000 worth of CAC verified coins..

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

NCS Authentication & Details Grading

In addition to its world-class conservation service, NCS provides comprehensive certification services for coins with irreversible detrimental surface conditions (commonly known as "problem" or "no grade" coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine or given a details grade.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

NCS coins are approved to be listed as certified on eBay.
